Smith and Nephew plc
US Worldmed, LLC

Covid-19 Scenario Analysis:

Pharmaceutical and biotech companies together with governments around the globe are working to address the COVID-19 outbreak, from supporting the development of vaccines to planning for medicine supply chain challenges. Currently, around 115 vaccine candidates and 155 molecules are in the R&D pipeline. Moreover, commonly used drugs such as Hydroxychloroquine have witnessed a dramatic surge in demand for the management of COVID-19. Such high demand for these drugs has presented huge opportunities for manufacturers of COVID-19 management drugs, as many developed countries are facing shortages of these drugs. Thus, the pharmaceutical and biotechnology industry is expected to witness significant growth in the future owing to the demand for vaccine and treatment drugs for COVID-19. This in turn is expected to have a significant impact on the botulinum toxin market.
