

Wood Preservatives Market Key Players, Competitive Landscape, Growth, Revenue and Industry Analysis Report by 2027

Increasing construction of residential and non-residential buildings in developing economies is driving the global wood preservatives market.

VANCOUVER, BC, CANADA, November 9, 2021 /EINPresswire.com/ -- The global [wood preservatives market](#) is expected to reach value of USD 1,899.8 Million by 2027, according to a current analysis by Emergen Research. This growth of the market can be attributed

to the increasing need to control wood degradation issues caused by decay or fungal rot, molds, sap stain, and wood-destroying insects. Growth of the construction industry led by the rising expenditure on construction activities in developing economies is projected to drive the demand for wood preservatives during the forecast period. The rising necessity to increase service life of wood and to reduce the need for frequent replacements of wood, causing addition to deforestation, has led to the rising adoption of wood preservatives.
