-- According to the new market research report '[Organic Coffee Global Market Report 2021: COVID-19 Growth And Change](#)' published by The

Business Research Company, the organic coffee market is expected grow from \$6.23 billion in 2020 to \$6.55 billion in 2021 at a compound annual growth rate (CAGR) of 5.1%. The growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$9.53 billion in 2025 at a CAGR of 10%. The increase in consumption of healthy and organic products, owing to various benefits associated with these products, is projected to drive the growth of the organic coffee market over the forecast period.
