Key Players

Some of the key players operating in Global Wireless POS Terminals Market are Verifone, PAX Global Technology, Diebold Nixdorf Incorporated, Elavon, Castles Technology, Winpos, BBPOS Ltd., Ingenico, Cegid Group, and Bitel.

Impact of the COVID-19 on Global Wireless POS Terminals Market

In pandemic period, worldwide manufacturing activities and financial markets have been badly impacted. Likewise, the Android-based POS systems, that are nearly exclusively manufactured in China, are most affected and this would create a scarcity of swipe machines to complete the procedure of digital payments at retail outlets.

Key Development

June 2021 - The new HP Engage Go 10 is the latest addition to HP's point-of-sale product line. The HP Engage Flex Mini, a tiny device that can provide a point-of-sale solution for non-bricks and mortar businesses or when space is limited, was introduced with the Engage Go 10.

February 2021 - Latvia-based digital payments provider, Paydoo, partnered with PAX Technology to launch the PAX E-Series of all-in-one POS and payment solutions for retail and hospitality verticals. The E-series is powered by Android and combines a cash register and a payment terminal. The solution supports conventional payments from chip and pin, contactless, and QR codes.

July 2021 - Oracle acquired GloriaFood, an online ordering and marketing platform, to extend its Oracle Micros Simphony Cloud POS platform. According to a press release, the acquisition, completed at the end of June now provides Oracle's restaurant customers to serve diners directly through the web, mobile, and apps.
