Diverticulitis disease is a digestive condition that causes formation of sacs or small bulges in the wall of the large intestine. Although these sacs are most common in the sigmoid colon, they can occur in any part of the colon. Diverticulitis disease is caused by a variety of conditions, including a low-fiber diet, lack of physical activity, and some medications such as anti-inflammatory drugs,

vitamin D deficiency, obesity, and smoking. Although the symptoms are mild and can be treated by exercise, lifestyle modifications, and antibiotics, if it get serious the inflamed pouches cause fever, severe abdominal pain, nausea, blood in stools, and requires surgery.

Comprehensive competitive analysis and profiles of major market players, such as

Sucampo Pharmaceuticals Inc., Valeant Pharmaceuticals International Inc., Abbott Laboratories, Synergy Pharmaceuticals Inc., Ardelyx Inc., Astellas Pharma Inc., and Novartis AG.

COVID-19 scenario analysis:

The ongoing covid-19 pandemic is fuelling the Diverticulitis Disease industry. This is attributed due to the immense increase of covid-19 testing activities on the global diagnostics system. The demand of vaccine development for covid-19 has resulted in research towards covid-19 vaccine which has also boosted the market growth. For instance, in March 2020, Indian scientists has reveal the microscopic image of a novel coronavirus.

The high demand covid-19 testing and diagnostics have increased extensive investments towards addition to applications in vaccine research in the pharmaceutical sector which has also contributed towards the growth of the Diverticulitis Disease Market.

Pharmaceutical and biotech companies together with governments around the globe are working to address the COVID-19 outbreak, from supporting the development of vaccines to planning for medicine supply chain challenges. Currently, around 115 vaccine candidates and 155 molecules are in the R&D pipeline.
