Since March 2020, the company has serviced over 4,500 exhaust fans, including over 850 that were forced to close

for repairs.

“Hood Services 24 is proud to support New York tri-state restaurant owners and ensure their

exhaust fans and kitchen hoods aren't a knockout blow for businesses," said Micheal Ellersick, Owner of Hood Services 24. "I grew up in the restaurant industry and worked at a restaurant myself for 25 years, so I have a lot of compassion for what business owners have had to face over the last 2 years."

Since restaurants have food cooking on a consistent basis, one of the most essential elements inside the restaurant is the exhaust fan, which helps cleanse the air of smoke, moisture, and carbon monoxide. A sudden malfunction is a safety hazard and, oftentimes, ends in business closure.
