

Aerosol Market Size, Opportunities, Key Growth Factors, Revenue Analysis, For 2021–2028

Aerosol Market Size – USD 61.21 billion in 2020, Market Growth – CAGR of 3.8 %, Market Trends – Technological developments in the field of aerosol

NEW YORK CITY, NY, UNITED STATES,
November 11, 2021 /

EINPresswire.com/ -- Advancements in aerosol, increasing use of personal care products, and rapid urbanization are some key factors driving market growth

Reports And Data

The [Aerosol Market size](#) is anticipated to reach USD 82.49 Billion in 2028 and register acquisition CAGR of 3.8% over the forecast period, according to a latest report by Reports & Data. A major factor driving market revenue growth is increasing demand of personal care products (such as hair spray, deodorants) due to growing social media culture and personal hygiene. Gel toothpastes, lotions and hydrating creams, cream foundations, self-tanners, makeup setting sprays and thermal waters sunscreen are some personal care items that use aerosols.

Ongoing research and development activities and private investments in personal care, household, food, automotive and industrial, medical and paints is expected to positively impact revenue growth of the market over the forecast period.

The government emphasis on sustainability and greener economy has been resulting in rapid adoption of eco-friendly packaging products across various industries and sectors in the recent past. Aerosol product containers are ecofriendly and can be fully recyclable. Further, development and launch of more advanced aerosol products has been opening up open new and more lucrative opportunities for players operating in the global aerosol market.

Major Factors Driving Growth of The Global Aerosols Market:

Rapid industrialization and expansion of various end-user industries, especially in developing countries are expected to propel the aerosol market growth in the near future. Also, rapid development of infrastructure and surging demand for paint, coatings and adhesive would boost

market growth in the near future. Besides, continuous research and development activities in the field of coatings and adhesives is anticipated to bolster demand for aerosols in the near future. In addition, launch of aerosol cleaning products approved by the Environmental Protection Agency (EPA) is expected to drive the aerosol market growth.
