

# India Science Festival launches a hunt for the Science Word of the Year

*Science Word of the Year or SciWo is a contest to shed limelight on a science word/phrase that has created a buzz, increased curiosity and inspired the public*

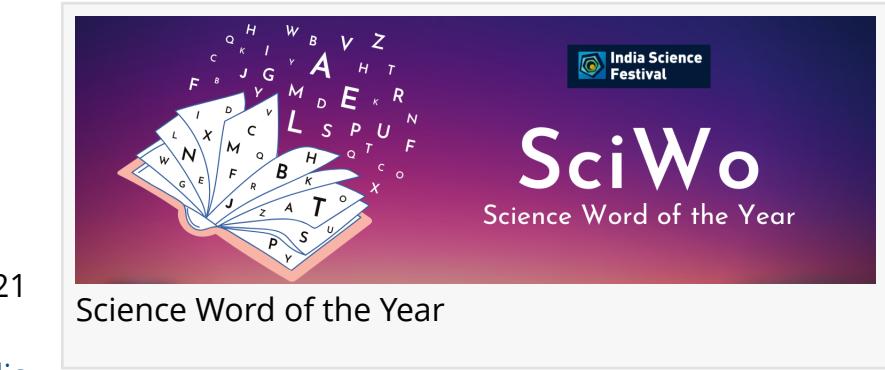

NEW DELHI, INDIA, November 15, 2021 /EINPresswire.com/ -- India's largest S&T public engagement platform, [India Science Fest](#),

launches SciWo: A hunt for the Science Word of the Year. Being the first such initiative anywhere in the world, it is uniquely placed to connect science and society, for we wish to get society's attention to scientific breakthroughs, and create greater interest in the public for science.

“

SciWo has the potential to embed science in youth culture. It will excite the young generation and public at large about science, new discoveries and inventions.”

*Varun Aggarwal, Founder of India Science Fest*

Under the aegis of [FAST-India](#), ISF is a non-profit initiative aimed at bringing science closer to the society. This is the third edition of ISF, which has hosted 200+ science practitioners and 30,000+ participants in previous years. ISF seeks to simplify and demystify science through numerous virtual activities that would lead to the grand online celebration in Jan 2022.

ISF's science word/phrase of the year is a contest to bring to limelight a word or phrase (<4 words) which has caught or ought to catch the imagination of the scientific community and also, the public eye. As SciWo is announced every year, it will create a long term public memory and narrative of how science has evolved, a mechanism to reflect back on the journey and contribute towards the 'science of science'.

Varun Aggarwal, founder of ISF said, "SciWo has the potential to embed science in youth culture. It will excite the young generation and public at large about science, new discoveries and inventions. It will go a long way in inspiring them to participate in science and pursue the scientific career."

SciWo will be crowdsourced through an online hunt! The initiative welcomes all science students, PhD students, professors, teachers, science communicators, and industry professionals to come

forward to send their entry to help us find the most apt word/phrase. The final word shall be selected by an eminent jury working on multiple inputs such as online votes, references in scientific literature and public science media.

Our esteemed jury by category:

Computer Science and Engineering:

Prof. Sanjay Sarma (MIT), Prof. Lav Varshney (UIUC)

Life Sciences and Biological Sciences:

Dr. Gagandeep Kang (CMC)

Mathematical Sciences: Prof. Gautam Menon (Ashoka University)

Physical Sciences: Prof. Mark

McCaughrean (European Space

Agency), Prof. Rajesh Gopakumar

(ICTS)

Interdisciplinary Sciences: Prof. Emily Cross (Macquarie University & University of Glasgow), Prof. Payal Arora (Erasmus University Rotterdam)

Anyone can share their entry for SciWo [here](#). SciWo will be announced at India Science Fest in January 2022.

#### About India Science Fest

ISF is a not-for-profit initiative that endeavors to serve as platform for deeper engagement between scientists, researchers, professionals, entrepreneurs and students. We wish to have the public involved in the latest in science and get all actors in the ecosystem to discuss, collaborate and progress together.

#### About FAST-India

The Foundation for Advancing Science and Technology (FAST India) is a non-profit institution of excellence dedicated to building capacity and advancing policy solutions that foster scientific enquiry and research, and facilitates the creation, dissemination, and translation of new scientific knowledge.
