ArtTour International Magazine, the leading multimedia platform in the international art world, has released the list of artists receiving the 2021 Emerald ARTYA Awards.

EMERALD ARTYA AWARDS by ArtTour International Magazine

Continuing with the magazine's tradition of honoring artists who create with a purpose, they have announced the annual Emerald Artya Awards will be held on November 12. The famous [art awards](#) will be presented in a virtual celebration in New York City.

The Emerald Artya Awards recognize outstanding art activism achievement, a particular social and environmental advocacy genre. Each year, they are honoring art activists worldwide whose work shines a light on critical social and environmental issues while inspiring others to take action.

The award presented to the winners is the creation of Emerald Artya Awards founder Viviana Puello. Conceptualized as "Gaia's Eye," it is painted with 24K Italian gold leaf and features a Colombian emerald at its center. The EAA was established in 2017 when Viviana, as the editor-in-chief of ArtTour International Magazine, partnered with Artists for a Green Planet and Create4Peace. The collaboration between these three organizations sought to present an opportunity for artists to be part of something greater than themselves.

The Emerald Artya Awards was created to honor fifty of the world's most talented artists as they create works of art that bring a positive change to the world. Coming from over 30 countries, these artists will come together to present their work and present their ideas and contributions to change the world for the better. Viviana Puello said, "These artists are to make a difference, not just for themselves, but for their community. And we want to celebrate their efforts while also shining a light on their projects so the rest of the world can hear their message."

The awards are given to artist-activists who contribute to solutions to societal issues while maintaining their drive for growth and creative self-expression. This year, the Emerald Artya Awards will honor artists and their contributions to environmental and social advocacies. These individuals are known as conscious creators for transformational change and healing. The EAA seeks artists who use their art to address various social, environmental, and economic issues.

“

These artists are committed to making our world a better place, we want to celebrate their efforts while also shining a light on their projects so the rest of the world can hear their message.”
