

Global Surgical Sutures Market Size, Research and Forecast By 2021-2026

SHERIDAN, WYOMING, UNITED STATES,
November 15, 2021 /

EINPresswire.com/ -- According to the latest report by IMARC Group, titled "[Surgical Sutures Market Size](#): Global Industry Trends, Share, Growth, Opportunity and Forecast 2021-2026; the global surgical sutures market reached a value of US\$ XX Billion in 2020. Surgical sutures represent medical strands or threads used to ligate blood vessels and sew damaged tissues together after an injury. They

are made utilizing natural fibers, such as silk, or synthetic materials, including nylon and polyester. Surgical sutures have excellent tensile strength, sterility, flexibility, knot security, etc., and are widely available in different types, sizes, shapes, and thread materials, based on the surgery requirement. Presently, the novel synthetic monofilament polydioxanone sutures (PDS) find extensive applications in repairing of soft-tissue wounds and abdominal closures during pediatric cardiac procedures.

We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

The growing awareness regarding the drawbacks associated with natural healing of surgical processes, including increased risk of wound contamination and bacterial infection, is primarily driving the surgical sutures market. Moreover, the inflating prevalence of various diseases and chronic disorders, such as arthritis, cancer, cardiovascular diseases (CVDs), etc., is further catalyzing the market growth. Besides this, the escalating number of fatal road accidents is also augmenting the global market. Furthermore, several leading market players are introducing surgical sutures that promote scar-free wound healing and minimize ischemia, excess wound tension, tissue injury, etc., which is acting as another significant growth-inducing factor. Apart

from this, the increasing demand for these sutures in aesthetic [plastic](#) surgery procedures, including mastopexy, platysmaplasty, brachioplasty, reduction mammoplasty, etc., is anticipated to propel the surgical sutures market over the forecasted period. Looking forward, IMARC Group expects the market to grow at a CAGR of XX% during 2021-2026.

Competitive Landscape:

- Advanced Medical Solutions Group plc
- B. Braun Melsungen AG
- Boston Scientific Corporation
- CONMED Corporation
- DemeTECH Corporation
- Integra LifeSciences
- Johnson & Johnson
- Medtronic plc
- Mellon Medical B.V.
- Smith & Nephew plc
- Stryker Corporation
- Teleflex Incorporated
- Zimmer Biomet.

Key Market Segmentation:

Breakup by Type:

- Absorbable Sutures
- Non-Absorbable Sutures

Breakup by Material:

- Monofilament
- Multifilament

Breakup by Application:

- Cardiovascular Surgeries
- General Surgeries
- Gynecological Surgeries
- Orthopedic Surgeries
- Ophthalmic Surgeries
- Others

Breakup by End User:

- Hospitals and Clinics
- Ambulatory Surgical Centers
- Others

Breakup by Region:

- North America (United States, Canada)
- Europe (Germany, France, United Kingdom, Italy, Spain, Others)
- Asia Pacific (China, Japan, India, Australia, Indonesia, Korea, Others)
- Latin America (Brazil, Mexico, Others)
- Middle East and Africa (United Arab Emirates, Saudi Arabia, Qatar, Iraq, Others)

We are updating our reports, If you want latest primary and secondary data (2021-2026) with Cost Module, Business Strategy, Distribution Channel, etc. Click request free sample report, published report will be delivered to you in PDF format via email within 24 to 48 hours.

Key highlights of the report:

- Market Performance (2015-2020)
- Market Outlook (2021-2026)
- Market Trends
- Market Drivers and Success Factors
- The Impact of COVID-19 on the Global Market
- Value Chain Analysis
- Structure of the Global Market
- Comprehensive mapping of the competitive landscape

If you need specific information that is not currently within the scope of the report, we will provide it to you as a part of the customization.
