

Database Management System (DBMS) Market Trends, Scope, Demand, Opportunity and Forecast by 2021-2026

Looking forward, IMARC Group expects the database management system market to grow at a CAGR of around 15% during 2021-2026.

SHERIDAN, WYOMING, UNITED STATES, November 15, 2021 /

EINPresswire.com/ -- According to IMARC Group's latest report, titled "[Database Management System \(DBMS\) Market](#): Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026", the global database management system (DBMS)

market exhibited strong growth during 2015-2020. A database management system (DBMS) is a computerized software-based solution designed to store, retrieve, define and manage the information in a database. Relational, distributed, hierarchical, object-oriented and network-based systems are some commonly used types of DBMS. It provides an interface between the user and the operating system and aids in reducing data redundancy, maintaining data consistency, convenient backup, data sharing and enhanced security and protection of the database. It finds extensive applications across various industries, such as defense, healthcare, manufacturing and banking, financial services and insurance (BFSI).

The global database management system (DBMS) market is primarily being driven by the increasing need for streamlining data processing and management applications across various industries. DBMS assists in efficiently managing large amounts and multiple types of data and reducing the operational costs of the organizations. Moreover, various technological advancements, such as the integration of DBMS with deep learning and operational intelligence solutions to provide efficient knowledge processing and enhanced flexibility of enterprise resources, are providing a thrust to the market growth. Other factors, including the widespread

adoption of cloud-based DBMS, along with significant growth in the information technology (IT) industry, are creating a positive outlook for the market. Looking forward, IMARC Group expects the market to grow at a CAGR of around 15% during 2021-2026.

As the novel coronavirus (COVID-19) crisis takes over the world, we are continuously tracking the changes in the markets, as well as the industry behaviors of the consumers globally and our estimates about the latest market trends and forecasts are being done after considering the impact of this pandemic.

Competitive Landscape with Key Players:

com Inc.
Cloudera Inc.
Embarcadero Technologies Inc. (Idera Inc.)
EnterpriseDB
International Business Machines Corporation
MariaDB Corporation
MarkLogic Corporation
Microsoft Corporation
Oracle Corporation
SAP SE
Software AG.

Market Segmentation:

Breakup by Type:

Linux
MacOS/iOS
Windows

Breakup by Component:

Hardware
Software

Breakup by Deployment Mode:

Cloud-based
On-premises

Breakup by Organization Size:

Small and Medium Enterprises (SMEs)

Large Enterprises

Breakup by Application:

BFSI

Defense and Government

Healthcare

Oil and Gas

Retail and Manufacturing

Others

Breakup by Region:

North America (United States, Canada)

Europe (Germany, France, United Kingdom, Italy, Spain, Others)

Asia Pacific (China, Japan, India, Australia, Indonesia, Korea, Others)

Latin America (Brazil, Mexico, Others)

Middle East and Africa (United Arab Emirates, Saudi Arabia, Qatar, Iraq, Others)
