

Oral and Maxillofacial Surgery San Francisco Announces Second Post in Series on Orthognathic Surgery in San Francisco

Oral and Maxillofacial Surgery San Francisco is proud to announce a second post on finding an orthognathic surgeon in the Bay Area.

SAN FRANCISCO, CALIFORNIA, UNITED STATES, November 22, 2021 /EINPresswire.com/ -- Oral and Maxillofacial Surgery San Francisco, a team of best-in-class orthognathic surgeons at <https://www.oral surgery-sf.com/>, is proud to announce the second in a series of posts on finding a great surgeon for one's needs. The latest post in the series explains how orthognathic surgeons in San Francisco can help Bay Area residents with jaw trauma 'get back to normal.'

"It's normal for Bay Area residents to choose elective surgery to improve their appearance. However, [jaw surgery](#) isn't always elective; it can be a necessity," explained Dr. Alex Rabinovich, head of Oral and Maxillofacial Surgery Center in San Francisco. "The second post in our series explains various reasons for orthognathic surgery, and how it can improve a person's daily life."

best oral surgeon San Francisco

“

It's normal for Bay Area residents to choose elective surgery to improve their appearance.”

Dr. Alex Rabinovich

Local San Francisco residents can review the new post at <https://www.oral surgery-sf.com/2021/11/when-it-comes-to-words-hard-to-spell-and-say-orthognathic-is-near-the-top/>. As the post explains, jaw surgery can help an individual recover from facial trauma and genetic abnormalities. Orthognathic issues can include irregularities in the jawbones, bad alignment of the jaw, or injury due to an accident or illness. Importantly, Dr. Alex

Rabinovich can meet with individuals for a no-obligation consultation to discuss the best option for jaw surgery. There is, after all, no single best jaw surgeon in San Francisco. Rather, the patient

is advised to interview more than one and make a decision on the best surgeon for his or her individual needs.

The new post is the second in a series of posts about orthognathic surgery in San Francisco. The Bay Area community can review the previous informational post at <https://www.oralssurgery-sf.com/2021/10/no-two/>. The clinical team can help review insurance plans and financial payment options to assist individuals who may need jaw surgery.

In the medical arena, cosmetic surgery is considered a popular 'elective' surgery. Indeed, changing one's appearance surgically can improve self-confidence and social standing. In many instances, however, this type of surgery may not be entirely 'cosmetic.' As the post concludes, jaw surgery can be a necessity not a luxury.

ABOUT ORAL AND MAXILLOFACIAL SURGERY SAN FRANCISCO

Oral and Maxillofacial Surgery San Francisco (<http://www.oralssurgery-sf.com/>) is located in the Financial District of the City.
