EINPresswire.com/ -- TLRY is Making
waves along with this NASDAQ; JW-300

Demonstrates Efficacy in Treatment of Developing Burns (sunburn) in a Double-Blinded Placebo
Controlled Clinical Trial ([NASDAQ: JUPW](#)) Jupiter Wellness

“

These encouraging results show the potential of JW-300 for the prevention and potentially the treatment of burns including sunburn”

*Dr Glynn Wilson, Jupiter's
Chief Scientific Officer.*

JUPW is comparable to TLRY (Tilray Inc.) Tilray is a Canadian producer that cultivates and sells medical and recreational cannabis. Tilray has traded as high as \$67 and as low as \$6.66 over a 52-week period. The stock was up 4.22% at \$12.36

Breaking News:

JUPITER, FL / November 16, 2021 / [Jupiter Wellness, Inc.](#) (NASDAQ:JUPW), a wellness company specializing in the

clinical development of skin therapeutics announced the results of a double-blinded placebo controlled trial of JW-300 for the treatment of first degree burns.

The JW-300 Clinical Trial included thirty-six patients who completed the study in which a controlled area of the skin was exposed to UV irradiation in the presence or absence (placebo) of the JW-300 lotion. The results demonstrated that the percent of subjects experiencing burns (measured by erythema) in patients treated with JW-300 was significantly lower ($p=0.047$) than in subjects receiving the placebo lotion. The percent of subjects that were burned in the placebo arm was 61% compared to 27% in patients treated with the JW-300. In addition, patients ($n=18$)

treated with JW-300 the average erythema score was 0.388 after radiation compared to 0.722 in the placebo arm (n=18).

“These encouraging results show the potential of JW-300 for the prevention and potentially the treatment of burns including sunburn,” stated Jupiter Wellness Chief Scientific Officer, Dr. Glynn Wilson. “JW-300 complements and has the potential to expand our current product lines which include CaniSun™ and Photocil™ that are clinically proven and designed to protect, treat, and achieve therapeutic balance in skincare health. The treatment of burns including sunburn are important indications with unmet needs, particularly in the OTC market where we see a significant opportunity for JW-300.”

▣ The burn care market was valued at \$2.1 billion in 2020 and is expected to grow at a CAGR of 7% from 2021 to 2028 driven by rising incidence of burns, favorable reimbursement policies, and technological advancement. Developer of CBD Treatments for the Growing Global Skin Care Market.

▣ Multiple Clinical and Commercial Milestones Recently Achieved on the Company's Proprietary Product Lines.

▣ Pro Golf Hall of Fame Legend Ernie Els Extends Endorsement Deal.

▣ Submitted Pre-IND Meeting Request with US FDA for Proposed Clinical Program of JW-100 as a Treatment for Mild to Moderate Eczema.

Jupiter Wellness, Inc. (NASDAQ: JUPW) is a leading developer of cannabidiol (CBD) based medical therapeutics and wellness products. The JUPW clinical pipeline of prescription CBD-enhanced skin care therapeutics address indications including eczema, burns, herpes cold sores, and skin cancer. JUPW generates revenues from a growing line of proprietary over-the-counter skincare products including its flagship CaniSun™ sunscreen and other wellness brands sold through its robust distribution platform.

US FDA Filings for JW-100 as a Treatment of Eczema

JUPW recently submitted a pre-IND package for JW-100 as a prescription drug for the treatment of mild-to-moderate atopic dermatitis (eczema). JUPW anticipates a pre-Investigation New Drug (IND) meeting with the US FDA in Q4 2021. In a prior early study, JW-100 cleared or reduced eczema following 2 weeks of use, suggesting that through its unique mechanism of action it may potentially prove superior to existing prescription drugs for the treatment of eczema.

Phase III Head-to-Head Study of JW-100C in Eczema

A head-to-head Phase III double-blinded, placebo controlled clinical trial designed to evaluate superiority of JW-100 to Eucrisa (an FDA approved topical drug) in adult patients with mild-to-moderate eczema expects first patient enrolled in Q4 2021.

JW-200 Clinical Study in Actinic Keratosis to Complete Enrollment Q1 2022

An investigational clinical study with a protocol similar to an FDA Phase I is enrolling 115 adults diagnosed with actinic keratosis. Enrollment is expected to be completed by the beginning of 2022 and data will be used in preparation for an FDA IND filing.

JW-300 Clinical Study in Burns to Complete Enrollment Q4 2021

A double-blinded, placebo controlled investigational study in Europe and Asia with a protocol similar to an FDA Phase I is enrolling 50 patients with newly diagnosed first degree burns. Resulting data will be used in preparation for an FDA IND filing. Enrollment is expected to be completed by the end of 2021.

"Based on our acquisition and development strategy. Jupiter Wellness has short-term product opportunities and an extensive clinical pipeline conducting double-blinded, placebo controlled clinical trials to unequivocally establish efficacy of our novel and proprietary products for both OTC and prescription drugs," stated Dr Glynn Wilson, Jupiter's Chief Scientific Officer. "Jupiter Wellness is committed to providing rapid and consistent relief for the majority of people suffering from a number of skin indications, including eczema, psoriasis, and vitiligo. Jupiter Wellness is also committed to developing approaches that measure individual gene expression that can be used to determine the most appropriate patients for treatment and the outcomes of therapies."

Multi-Year Extension of Endorsement Agreement with Pro Golfer Ernie Els

On September 8th JUPW announced a multi-year extension of its endorsement agreement with PGA Golf Legend Ernie Els. Els, known as "The Big Easy", will help promote the JUPW patent pending CaniSun Suncare Product Line for two additional years. The CaniSun product line offers the highest quality suncare products infused with CBD.

Pursuant to the agreement, JUPW will extend its agreement with renowned golfer Ernie Els, who will act as a brand ambassador of the JUPW unique, one-of-a-kind Suncare products. The campaign is seen as CaniSun partnering with one of the best and well-liked athletes in the sport of golf. The campaign focuses on providing premium suncare protection for everyone from elite athletes like Ernie Els to the everyday weekend warrior.

"Because I spend so much time in the sun, I always hit the golf course with CaniSun. I'm constantly looking for the most effective products, and CaniSun consistently works well for me, so it's my first choice," Els stated. "I've been using CaniSun sunscreen and I love the product. This is an easy endorsement for someone who is in the sun as much as I am. Extending the relationship made sense."

Submitted a Pre-IND Meeting Request with the US FDA for its Proposed Clinical Program of JW-100 as a Treatment for Mild to Moderate Eczema

On August 23rd JUPW announced it has submitted a pre-IND (Investigational New Drug) meeting request with the U.S. Food and Drug Administration (FDA) in support of its JW-100 drug development program the treatment of patients with mild to moderate Eczema .

The benefits of holding a pre-IND meeting are to receive early FDA feedback on proposed preclinical and clinical study plans confirming strategy for IND submission. The FDA's statistics show that this can significantly reduce overall development times which impacts time to market.

The Global Eczema (atopic dermatitis) treatment market is valued at \$10 billion and expected to grow at a CAGR of 13% from 2020-2025. 31.6 million Americans or roughly 10% of the population suffer from Eczema. 86% are not satisfied with their current treatment.

Through the JUPW research and development program, it has shown that in a double-blinded, placebo controlled clinical trial, JW-100 significantly reduced ISGA scores in 50% of adult patients suffering from eczema and JW-100 cleared or reduced eczema following 2 weeks of use.
