

PES Solar Launches New Roofing Company

PES Solar is a solar panel installation company providing services to residents in Florida, North Carolina, and South Carolina.

DEBARY, FL, USA, November 16, 2021 /EINPresswire.com/ -- [PES Solar](#) is pleased to announce they have launched a new roofing company. The solar installers recognized their experience installing solar panels coincided with offering roofing services and decided to expand their offerings to provide customers with a higher level of service.

The new roofing company operated by PES Solar will provide customers with roofing installation, maintenance, and repair services to keep their roofs in excellent condition, whether or not they have solar panels installed. Because solar panels and roofing go hand in hand, the professional team can provide their customers with all the services they need without working with multiple companies to fulfill their roofing needs.

PES Solar expanded to include roofing services for their customers to ensure they have access to the high-quality services they require when installing solar panels. PRS Roofing provides customers with a complete package, ensuring their roofs are in excellent condition before [installing solar panel systems](#) and throughout their use. In addition to ensuring customers have access to all the services they need, they can count on co-existing warranties on all work performed.

Anyone interested in learning about the new roofing company can find out more by visiting the PES Solar website or by calling 1-800-650-6519.
