

Center for Pet Safety Awards a 5 Star Crash Test Rating to Diggs New Passenger Carrier

Diggs' new Passenger pet carrier earns Top Honors from Center for Pet Safety

WASHINGTON, DC, UNITED STATES, November 17, 2021 /EINPresswire.com/ -- The [Center for Pet Safety](#), the 501(c)(3) research and consumer advocacy organization dedicated to consumer and companion animal safety, today awarded the new Passenger pet carrier by Diggs a 5 Star Crash Test Rating.

CPS is leading the first scientific approach to pet product safety and the Carrier Crash Test Protocol and Rating System provides essential guidelines for pet product manufacturers. The test protocol, which is a result of the 2015 Carrier Crashworthiness Study, conducted by Center for Pet Safety outlines a consistent test methodology and evaluation program to ensure pet travel carriers offer crash protection.

"We are very impressed with Diggs' new Passenger pet carrier", said Lindsey Wolko, Center for Pet Safety founder. "It is rare for a new pet product to pass certification testing on the first try. This indicates to us that the Diggs team is taking safety seriously."

Center for Pet Safety encourages manufacturers interested in participating in this rigorous testing and performance program to contact Info@CenterForPetSafety.org or call 800.324.3659.
