Connect EMP Trust to ADP SmartCompliance® Tax Credits (ADP WOTC)

This connects EMP Trust Platform to the ADP WOTC platform for seamless integration and provides the ability for new employees to complete the WOTC form with a single sign-on between ADP and EMP Trust. Customers can track qualified new hires within the EMP Trust tool as part of their hiring process and qualify for Federal and State

work credits. This is real-time integration and data is synchronized to provide new hires with an easy-to-use form that minimizes data entry and allows HR users to track the status of eligible employees for WOTC credits.

The Integration Details

It allows clients to have new hires complete the onboarding process as part of the new hire process and see the status of WOTC forms and earn WOTC credits as part of a new hire process.

“This integration is a huge win and it provides enormous value to the clients. The integration will aid businesses in completing WOTC forms more quickly. Furthermore, the complete talent lifecycle will be free of paper-based processes” said Mary Abraham, EMP Trust Major Accounts Manager.

Tax credits might be an effective way for a company to save money. However, obtaining them on your own is difficult and time-consuming. With the EMPTrust integration joint clients from small to big enterprises will be assisted in identifying and capturing federal, state, and local tax credits and incentives for which they are entitled by combining innovative technology with ADP's extensive subject knowledge. This integration replaces an existing older integration and makes it part of ADP Marketplace and is offered at no cost to clients.
