

AMP Aero Services Announces Disassembly Consignment Agreement for Three CFM56-3C1 Aircraft Engines

Miami Based, AMP Aero Services, Secures Dismantle Agreement for Three CFM56-3C1 Aircraft Engines

MIAMI, FL, USA, November 16, 2021

/EINPresswire.com/ -- [AMP Aero](#)

Services (AMP Aero) announced today

they have secured a consignment agreement with a major North American lessor for the dismantling, repair & remarketing of three General Electric CFM56-3C1 aircraft engines. The engines will be dismantled in Florida and material will be available within the next 45-60 days and managed by the AMP Aero distribution and sales teams.

“

The acquisition of these engines was critical to fulfilling our customer requirements. Our proven track record made us the right partner for this opportunity,”

Ambalick Agarwal - Managing Director

As a growing leader in aircraft supply chain solutions, it's imperative to have access to the right material at the right time. AMP Aero's ability to acquire material is strong and with a global presence on two continents, AMP Aero is strategically positioned to support its customers.

“The acquisition of these engines was critical to fulfilling our global support requirements for our Boeing customers. In addition, we are eager to deliver this material to the market as the demand is real and our proven track record made us the right partner for this

opportunity,” said [Ambalick Agarwal](#), Managing Director of AMP Aero Services, LLC.

AMP Aero is looking to increase whole asset transactions not only for aircraft engines but also narrow & wide-body aircraft.

For material inquiries and more information on this engine material or a detailed list of included material, requests can be sent to sales@amp-aero.com.
