

Antiscalants Market Growth, Revenue Share Analysis, Company Profiles, and Forecast To 2027 | Reports And Data

Antiscalants Market Size – USD 2.83 Billion in 2019, Market Growth - CAGR of 4.9%, Market Trends – Rapid urbanization and Increase in Industrialization.

Reports And Data

NEW YORK CITY, NY, UNITED STATES,
November 17, 2021 /
EINPresswire.com/ -- The global

[Antiscalants market](#) is forecast to reach USD 4.16 Billion by 2027, according to a new report by Reports and Data. Antiscalant is used extensively in membrane treatments, pipeline transportation, desalination products, and water processing. The growing demand for antiscalants from end-users such as Chemical, Power, and Water Treatment plants owing to their cost-effective and superior properties is driving the growth of the market.

The increasing investment in the development of new products and technology for water treatment is the major factor for the growth of the market.

The focus of manufacturing units on water quality is projected to play a crucial role in the development of water treatment facilities. It eventually means a lesser carbon footprint, cost-saving, and other better properties. Investment in the innovation of new products and technology for water treatment like oxidation ditch and sequencing batch reactors are among the major reasons for the growth of the antiscalant market.

The investigative report on the Antiscalants market assesses the global market for the Antiscalants industry and offers estimates for the market in terms of revenue and capacity for the forecast period 2021-2028. The report also analyzes the key companies engaged in the industry along with their product portfolio, business overview, strategic expansion plans, revenue generation, market share and size, regional presence, and production and

manufacturing capacity. It also offers details about the recent mergers and acquisitions, joint ventures, collaborations, partnerships, agreements, brand promotions, and product launches, among others.

The materials and chemicals industry deals with the production and manufacturing of raw materials and chemicals for every end-use industry. The chemical industry produces industrial chemicals and raw materials and is a crucial part of the economy of every country. The increasing growth of end-use industries, rising penetration of materials informatics, the advent of 3D printing, and integration of advanced technologies and machinery are key factors contributing to revenue growth of the market. Furthermore, the rising number of product approvals, launches, and strategic alliances have significantly contributed to market growth. The report offers an extensive database for technological developments and product advancements.

Top Key participants:

Clariant AG, General Electric Co., Kemira OYJ, Solvay SA, Ashland Inc., BASF SE, BWA Water Additives, The DOW Chemical Co, Ict Inc., and Avista Technologies, among others.

Further key findings from the report suggest

Phosphates held a larger share of 24.9% in the year 2019. It is commonly used for water treatment along with scale and corrosion inhibitors, and iron sequestrants. It is also effective at low concentrations and can be used as a stabilizer in the manufacture of bleaching agents. It is also used for the reduction of carbonate deposition.

The Asia Pacific has a high demand for antiscalants owing to the rise in the number of automotive, availability of cost-effective labor, and increase in the exploration of oil and gas. The region is forecasted to hold a market share of 59.1% in the year 2027.

Antiscalant uses threshold inhibition to maintain the supersaturated solution of soluble salts. The segment is forecasted to grow with a CAGR of 4.8% during the forecast period.

Industrial water treatment held a significant share. The rise in demand for antiscalants from core industries such as mining, power, oil, and gas are propelling the demand for the market. The market product is highly preferred in water and wastewater treatment.

For the purpose of this report, Reports and Data have segmented into the global Antiscalants market on the basis of the type, form, product, method, end-user, and region:

Type Outlook

Organic

Inorganic
Form Outlook
Concentrated Liquid
Powder Form

Product Outlook
Phosphates
Fluorides
Carboxylates
Sulfonates
Others

Method Outlook
Threshold Inhibition
Dispersion
Crystal Modification

End-Use Outlook
Oil & Gas
Pulp and Paper
Industrial Water treatment
Mining
Geothermal
Desalination
Coal Gasification
Chemicals

Regional Outlook
North America
Europe
Asia Pacific
Latin America
MEA

About Reports and Data

Reports and Data is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions focus on your purpose to locate, target, and analyze consumer behavior shifts across demographics and industries and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries including Healthcare, Technology, Chemicals, Power, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market
