Additionally, growing concerns with weight management, emphasis on weight loss & maintenance, importance on the blood sugar spike control are some of the factors that have been creating an overall enforcement in the market. Beside, high calcium and Vitamin E, Vitamin

Reports And Data

D with fiber, calories, the Cashew Milk have been very effective on enhancing antioxidant degree, providing low sugar & calorie content, working as an efficient source of calcium, providing high bone density, digestive health & weight management.

The COVID-19 impact:

The COVID-19 pandemic has created endless disruptions to the manufacturing or production industries due to a shortage of resources in different parts of the world. The leading players in the industry are skeptical about the market's future and try to redesign their strategies to support the challenge. The pandemic had a serious impact on the distribution chains as a result of regular lockdowns. The manufacturing industries have been disrupted due to reduced available human resources. The companies are incorporating different techniques to increase the production volume and trying to develop innovative solutions at an affordable price, which can meet customer requirements at a much lower cost.

Key participants include Whitewave Foods, Blue Diamond Growers, Daiya Foods Inc., Tofutti Brands Inc., SunOpta Inc., Fine Japan Co. Ltd., Hain Celestial Group, Galaxy Nutritional Foods, Inc., Nature's Choice B.V., and Vitasoy Australia Products Pty. Ltd., among others.

Further key findings from the report suggest

- The overall nutritional supplement sales for children are expected to rise during the forecast period. It was observed that Chinese and Indian parents were willing to spend relatively large amounts of money on the health of their children in relation to family income.
- A new trend emerging in the dietary supplements market is the need to use organic or sustainable ingredients. This trend is being driven by two fundamental shifts in this industry: the need to consume 'healthier' ingredients and consumers' increasing concerns for sourcing 'sustainable' products
- Variations in the price of the upstream product are expected to influence the production cost of organic Cashew Milk. The cost of production is also an important factor which could affect the market price.
- Nutraceuticals & Baby Food sub-segment had a market share of 28.6% in 2019 due to its remarkable usage of the Cashew Milk based formulation for making end-use baby food products & nutritional additives.
- In September 2019, Z Natural Foods announced the launch of cashew milk powder. The cashew nut flavor from the company makes a mild, dairy-free, flavorful experience of non-conventional milk and especially made for the vegetarian & lactose-free lifestyles.
- So Delicious, a renowned vegan non-dairy based product company, released a new and organic almond cashew milk.
