

# Automotive Sensors Market Size is Expected to Reach \$37.65 Billion by 2027 | Key Trends, Growth Factor and Opportunities

PORTLAND, OREGON, UNITED STATES,  
November 18, 2021 /

EINPresswire.com/ -- Allied Market Research published a new report, titled, "Global Automotive Sensor Market by Type (Temperature Sensors, Pressure Sensors, Motion Sensors, Speed Sensors, and Gas Sensors) and Application (Powertrain, Chassis, Body Electronics, Safety & Security, and Telematics): Global Opportunity Analysis and Industry Forecast, 2021-2027." According to a report, the global automotive sensor market size was

\$16.40 billion in 2019 and is projected to reach \$37.65 billion by 2027, to register a CAGR of 10.2% during the forecast period. Asia-Pacific is expected to be the leading contributor to the global automotive sensor market, followed by North America and Europe.

The research provides an in-detailed examination of market trends and active frontrunners in the global [Automotive Sensors Market](#). Along with this, comprehensive study on effective business segments, product portfolio, business presentation, and major strategic improvements are also presented in the report.

The key market players outlined in the Automotive Sensors Market report include Robert Bosch, DENSO Corporation, AUTOLIV INC, Continental AG, Valeo, Delphi Automotive Company, Sensata Technologies, NXP Semiconductor, STMicroelectronics N.V, and Infineon Technologies AG.

These market players have implemented various strategies including new product launches, expansions, joint venture, collaborations, and mergers & acquisition to achieve robust potential in the industry.

## Key Benefits from Automotive Sensors Market Report 2021-2027:

- The report offers an extensive analysis of the recent Automotive Sensors Market trends, estimations, and market value from 2021 to 2027 to regulate new prospects.
- Porter's Five Forces analysis brings out the effectiveness of customers and providers that empowers the market players to make strategic business decisions and discover the level of competition in the industry.
- The report outlines major determinants & key investment pockets.
- Region wise revenue contribution has analysed and mentioned in the market report.
- The market player positioning segment offer an in-depth understanding of the existing position of the market players active in the Automotive Sensors Market report.

The report provides a broad analysis of prime growth strategies, major market determinants, key segments, Porter's Five Forces analysis, and competitive outlook. This analysis is a considerate source of statistics for market players, investors, VPs, and start-ups to gain a detailed understanding of the industry to move forward and gain competitive advantage.

COVID-19 Pandemic interrupted the various industries across the globe.

The report provides major drivers that proliferate the growth of the global Automotive Sensors Market. These insights assist the stakeholders to formulate further strategies to achieve market appearance. The research also highlights the limitations of the industry. The insights on upcoming opportunities are outlined in the market to aid the market players with further planning in the untapped regions. The report presents an in-depth segmentation of the global Automotive Sensors Market.

The major segments examined in the report include type, applications, end-user, and regions. The comprehensive study of sales, market revenue, growth rate, and market share of every segment of the significant year period and forecast period is provided within table format.

The region-wise competitive landscape for Automotive Sensors Market is also available in the report. The regions in the study involve North America (the United States, Canada, and Mexico), Europe (Germany, France, UK, Russia and Italy), Asia-Pacific (China, Japan, Korea, India and Southeast Asia), South America (Brazil, Argentina, Colombia), Middle East and Africa (Saudi Arabia, UAE, Egypt, Nigeria and South Africa). These insights are useful for market players to devise strategies and create new opportunities to achieve astonishing results.

## Key offerings of the report:

- Prime determinants of the market: Thorough analysis on the major driving factors and opportunities based on different segments for manoeuvring.
- Recent market trends & forecasts: Exclusive analysis on existing market trends, growth, and forecasts for the next few years to make valuable strides.
- Segmental examination: Each segment analysis and driving factors coupled with revenue forecasts and growth rate study.
- Regional Analysis: Region wise systematic analysis to help market players formulate growth strategies and take a dive.
- Competitive Landscape: Insights based on each of the foremost market players for highlighting competitive scenario and take steps consequently.

## Key Market Segments

### •BY APPLICATION

- oPowertrain
- oChassis
- oBody Electronics
- oSafety & Security
- oTelematics

### •BY TYPE

- oTemperature Sensors
- oPressure Sensors
- oMotion Sensors
- oSpeed Sensors
- oGas Sensors

### •BY REGION

- oNorth America
  - U.S
  - Canada
  - Mexico
- oEurope
  - UK
  - Germany
  - France
  - Italy
  - Rest of Europe
- oAsia-Pacific
  - China
