# NoteBurner Now Fully Supports Mac OS 12 Monterey

*NoteBurner officially announced that its audio converting tools for Mac fully support the recently released macOS 12 Monterey.*
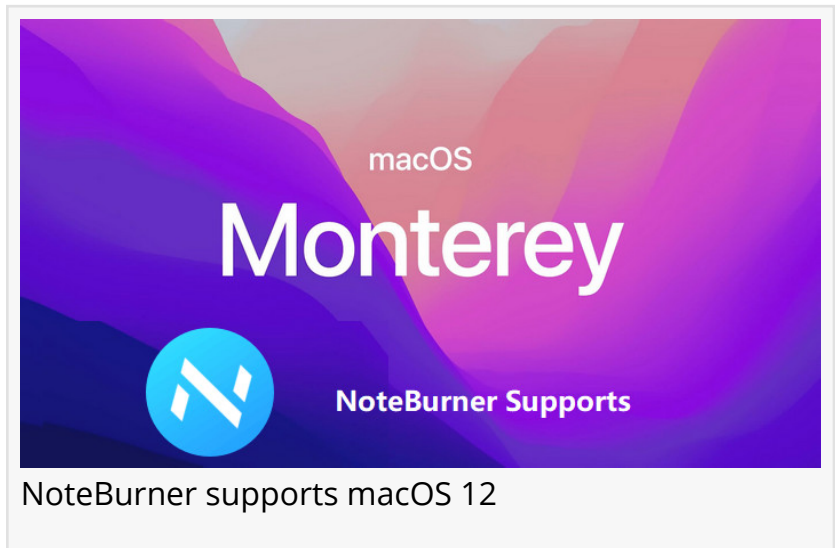

NEW YORK, NEW YORK, UNITED STATES, November 19, 2021 /EINPresswire.com/ -- NoteBurner Inc, one of the best music converter providers, officially announced that its audio converting tools for Mac, including Spotify Music Converter, iTunes Audio Converter, Amazon Music

NoteBurner supports macOS 12

Recorder, Line Music Converter, and video downloading tool Netflix Video Downloader fully support the recently released macOS 12 Monterey. That's to say, NoteBurner programs are at the forefront of macOS 12 Monterey support. All NoteBurner users can easily convert their Spotify songs, iTunes audio, Apple Music songs, Amazon Music songs and Line Music songs to MP3/AAC/WAV/FLAC/AIFF format with the latest version of NoteBurner music downloading tools on macOS 12 Monterey.

macOS 12 Monterey was unveiled in June 2021 and released on October 25. Compared to macOS Big Sur, macOS Monterey is just a smaller update, but there are still many notable new features that improve the Mac experience, such as the new tap bar design, Universal Control, Facetime update. However, many users may concern about whether NoteBurner programs are compatible with the macOS 12 Monterey. The good news is that finally NoteBurner Inc. announced their Spotify Music Converter, iTunes Audio Converter, Amazon Music Recorder, Line Music Converter and Netflix Video Downloader are fully compatible with the macOS 12 Monterey.

Products Introduction

Spotify Music Converter makes it possible to save Spotify music to Mac. Besides, users can use NoteBurner Spotify Music Converter to convert Spotify music and podcasts to MP3, AAC, FLAC, AIFF, or WAV format according to users needs. Before conversion, there are flexible settings for users to choose.

iTunes Audio Recorder is the combination of Apple Music converter, iTunes music downloader, and audiobook recorder. Given the powerful support of such a tool, users are capable of convert any audio which can be played in iTunes, such as Apple Music files, audiobooks, iTunes music or other downloaded music, to MP3, AAC, FLAC, AIFF, or WAV format with few clicks.

Amazon Music Recorder supports to drag & drop Amazon Music link to parse and convert songs, playlists, and albums to plain audio format. With NoteBurner Amazon Music Recorder, users can download with Amazon Music Unlimited, Prime Music, Amazon Music HD songs that users like to Mac computer for offline playback with media players.

Line Music Converter can convert the music directly through the Line Music web player, all the things that users need to do is install the NoteBurner Line Music Converter and the Line music songs can be downloaded instantly.

Netflix Video Downloader can help users download any videos that are available on Netflix to the local drive as MP4 or MKV format, which users can transfer them to any other devices to watch and the Netflix application is no longer necessary.
