rendering factors and restrictions limiting expansion. It enables people to comprehend various flaws and how they may obstruct future growth. This section is one of the most important in the report since it explains how many macro and microeconomic factors affect growth. The research also discusses the role of several sectors in the expansion, including small-scale and large-scale operations. Furthermore, industry specialists have presented current trends and prospects that are expected to boost growth in the next years.

The global Gasket and Seals was accounted for US\$ 69,457.9 Mn in terms of value in 2019 and is expected to grow at CAGR of 5.4% for the period 2020-2027.

The demand for gaskets and seals has increased over the years, with typical applications in the oil and gas industry. As a result of this, key manufacturers are focused on continuous research and development activities, in order to expand their product portfolio and gain a competitive edge in the market. Recently, in August 2020, Alba Gaskets Ltd. launched Alba-RIG (Rapid Integrity Gasket) for the oil and gas industry. Hence, such product launches can stimulate growth of the gasket and seals market.
