

# Orthopedic Power Tools Market to at CAGR of 3.50 % Between 2020 & 2027 | De Soutter Medical, Medtronic

SEATTLE, WASHINGTON, UNITED STATES, November 19, 2021 /EINPresswire.com/ -- The global [orthopedic power tools market](#) is estimated to be valued at \$943.8 million in 2020 and is expected to exhibit a CAGR of 3.50 % during the forecast period (2020-2027).

Orthopedic surgeons carry various orthopedic power tools to perform their work. These tools can be hand-held or table top. The tools that a surgeon carries are classified by type (large bone, small bone, high speed, high pressure, or portable orthopedic power tools) and by technology (pneumatic, electrical, or hydraulic). Increasing number of orthopedic surgeries boosts demand for orthopedic power tools.

Orthopedic Power Tools

Major players operating in the global orthopedic power tools market include, Adeor Medical AG, Allotech Co., Ltd., Aygün Surgical Instruments Co., Inc., B. Braun Melsungen AG, DePuy Synthes Companies, De Soutter Medical, Exactech, Inc, ERMIS MedTech GmbH, IMEDICOM Co., Ltd., Medtronic plc, Medical Bees GmbH, NOUVAG AG, Stryker Corporation, Shanghai Bojin Medical Instrument Co., Ltd., and Zimmer Biomet.

The global orthopedic power tools market growth is driven by increasing cases of sports-related injuries. For instance, in November 2018, the study, 'Results on sports-related injuries in children

from NHS emergency care dataset Oxfordshire pilot: an ecological study', children aged between 0–19 years accounted for 47.4% of sports injury-related emergency department attendances and around 23.5% of sports injury-related admissions for all ages.

Globally, as of 5:04pm CET, 1 November 2021, there have been 246,594,191 confirmed cases of COVID-19, including 4,998,784 deaths, reported to WHO. As of 1 November 2021, a total of 6,893,866,617 vaccine doses have been administered. Emergence of the COVID-19 pandemic has prompted several hospital systems to reduce operating room capacity and reallocate resources. The outcomes of these policies on the care of injured patients and the maintenance of emergency services have not been adequately reported.

The global orthopedic power tools market is witnessing several merger and acquisition activities. For instance, in July 2021, CEECAT Capital, a private equity investor, acquired a majority stake in Aygun Surgical Instruments.
