

AEROGARDEN INTRODUCES “HARVEST XL”

Newest Model in Smart Hydroponic Countertop Garden Line Provides More Light, Height and Water Capacity for Taller, Fuller Varieties of Herbs and Veggies

BOULDER, CO, USA, November 19, 2021 /EINPresswire.com/ --

[AeroGarden](#), the world’s leading in-home, smart hydroponic garden system, is pleased to introduce its [Harvest XL](#). The new 6-pod Harvest XL is the perfect solution to having fresh, flavorful herbs, veggies, microgreens and fresh flowers any time of year – no sun, soil or green thumb needed.

The newest, tallest offering in the AeroGarden Harvest family, the Harvest XL offers an 18 inch extendable grow light panel and upgraded trellis system to provide 25 percent more light and 50 percent more growing height, and more support for larger plants.

“

The new Harvest XL features a greater capacity that will enable people to successfully grow healthy, fresh produce and more, regardless of season, location or experience.”

Tina Edwards, Brand Manager, AeroGarden

The new garden comes equipped with the same great features as the original Harvest, including an easy-to-use control panel, ultra-thin grow light hood, and easy setup in minutes. In addition, AeroGarden Harvest XL’s unique features enable it to grow taller, fuller plant and verb varieties like tomatoes, peppers and sage more easily.

“The new Harvest XL features a greater capacity that will enable people to successfully grow healthy, fresh produce and more, regardless of season, location or experience,” said Tina Edwards, Brand Manager for AeroGarden. “The Harvest is our most popular model, and this new version

allows new and existing brand fans to enhance their growing range while maintaining the same overall footprint.”

The Harvest XL model features:

- More light: 25W LED grow lights deliver 25% more light;
- More grow height: 18” extendable lamp arm offers 50% more height to grow taller plant varieties;
- More space: 30% larger grow deck to give plants more room to spread out;
- More water capacity: 47% more water capacity to extend the time between fill ups;
- Improved trellis: sturdier and taller trellis attachment to ensure plants stay supported as they grow.
