

# Industrial Fabric Market Competitive Landscape, Size, Demand, Statistics and Industry Analysis Report by 2028

*Rising demand for industrial fabrics in automotive applications is a significant factor driving global industrial fabric market revenue growth*

VANCOUVER, BC, CANADA, November 22, 2021 /EINPresswire.com/ -- The global [industrial fabric market](#) size is expected to reach USD 204.80 Billion and register a revenue CAGR of 8.3% in 2028, according to latest analysis by Emergen Research. Steady market revenue growth can be attributed to growth of the construction sector and increasing emphasis on infrastructure development. Increasing use of industrial fabrics in the construction sector has substantially improved construction quality.

In June 2019, Milliken & Company, which is a leading textile producer, made an announcement about entering into an agreement for the acquisition of Polartec, which is a company that offers performance textiles for military and outdoor apparel.

## Some Key Highlights From the Report

By fiber type, the polyester segment contributed a significantly large revenue share to the global market in 2020. Polyester fiber is highly versatile and finds wide application in production of clothing due to its high durability and tenacity. Also, as a robust fiber material used in industries, this fiber type is appropriate for repetitive and strong movements. The water-repelling property of polyester makes it an appropriate material in industrial settings requiring water resistance fabrics.

By application, conveyor belt segment accounted for a significantly robust revenue share in 2020. Industrial fabrics are deployed as width fiber in conveyor belts to enhance fastener retention and rip resistance, along with abrasion resistance. Conveyor belts produced from polyester are developed for use in applications needing improved belt resistance to pyrolysis. Also, use of fibers such as polyamide that are tough and highly resistant to abrasion extend longevity of conveyor belts.

Some key players in the market report include DuPont, GR Henderson Co. Textile Ltd., Russett Holdings, Johns Manville, ContiTech AG, Fitesa SA, Toray Industries Inc., Cerex Advanced Fabrics Inc., Beaulieu Technical Textiles, and Sage Automotive Interiors Inc.

#### Market Segmentation:

The report categorizes the market into different key segments based on types and applications, along with key regional segmentation. The report offers insights into the segment expected to garner traction during the forecast period, and the region expected to dominate the market in the coming years.

#### Fiber Type Outlook (Revenue, USD Billion; 2018–2028)

Polyamide

Polyester

Aramid

Composite

Others

#### Distribution Channel Outlook (Revenue, USD Billion; 2018–2028)

Direct

Indirect

#### Application Outlook (Revenue, USD Billion; 2018–2028)

Transmission Belt

Conveyor Belt

Protective Clothing

Flame resistant Apparel

Automotive

Others

The research study also offers insights into various regulatory frameworks and evaluates the growth of the industry in each key region of the world. The report also provides an assessment of the micro and macro-economic factors influencing the growth of the market in the mentioned regions. The global Industrial Fabric market is segmented into the following based on the key regions of the world:

North America (U.S., Canada)

Europe (U.K., Italy, Germany, France, Rest of EU)

Asia Pacific (India, Japan, China, South Korea, Australia, Rest of APAC)

Latin America (Chile, Brazil, Argentina, Rest of Latin America)

Middle East & Africa (Saudi Arabia, U.A.E., South Africa, Rest of MEA)

Exhaustive Analysis of the Competitive Landscape of the Global Industrial Fabric Market:

The global Industrial Fabric market report zeroes in on the overall competitive scope of this industry vertical.

The study provides detailed product information, alongside their specifications and prime applications.

The study entails various pricing models and profit returns accrued, outlined by the key contenders across the market.

The report enlists a wide array of strategic initiatives, for example, recent business deals, collaborations, joint ventures, mergers & acquisitions, product launches, and technological upgradation.

The inference of the report comprises an exhaustive study of the key players of the market.

Table of Content:

## Chapter 1. Methodology & Sources

### 1.1. Market Definition

### 1.2. Research Scope

### 1.3. Methodology

### 1.4. Research Sources

#### 1.4.1. Primary

#### 1.4.2. Secondary

#### 1.4.3. Paid Sources

### 1.5. Market Estimation Technique

## Chapter 2. Executive Summary

### 2.1. Summary Snapshot, 2020-2028

## Chapter 3. Key Insights

## Chapter 4. Industrial Fabric Market Segmentation & Impact Analysis

## 4.1. Industrial Fabric Market Material Segmentation Analysis

## 4.2. Industrial Outlook

### 4.2.1. Market indicators analysis

### 4.2.2. Market drivers' analysis

#### 4.2.2.1. Growing demand for industrial fabrics in automotive

#### 4.2.2.2. Increasing adoption of geosynthetics

#### 4.2.2.3. Growth of construction industry

#### 4.2.2.4. Rising emphasis on industrial fire safety

### 4.2.3. Market restraints analysis

#### 4.2.3.1. Strict legislative regulations for industrial fabrics production

## 4.3. Technological Insights

## 4.4. Regulatory Framework

## 4.5. Porter's Five Forces Analysis

## 4.6. Competitive Metric Space Analysis

4.7. Price trend Analysis

4.8. Covid-19 Impact Analysis
