

GREEN DROP COMPRESSION HIGH-PERFORMANCE COMPRESSION SLEEVES AND SOCKS PASSES THE TEST

Green Drop combines high-performance compression technology with its medicated "Muscle Rub" formula, respond to body movement, help insure continuous relief

STAMFORD, CT, USA, November 23, 2021 /EINPresswire.com/ -- With the holidays just around the corner, newly-launched Green Drop Compression, a leader in high-performance "herb-infused" compression socks and sleeves for those with active lifestyles, is offering its innovative lineup of products at a discount for Black Friday and Cyber Monday. Between its industry-leading efficacy and affordable price point, Green Drop's compression products are uniquely suited to help the exercise enthusiast battle aching joints and muscles.

Unlike competitive products, Green Drop combines high-performance compression technology with its medicated "Muscle Rub" formula, bonded into fabric fibers through a patented textile finishing treatment. Green Drop's sleeves and socks respond to body movement and release Muscle Rub to targeted areas to help ensure continuous relief. This proprietary combination of Camphor, Wintergreen, and Safflower oil has been proven to assist in the recovery and relief of muscle aches.

“

As we age, muscle aches and joint pain become more prevalent, which can inhibit active individuals from enjoying their walking, running, swimming and other sports”

Dr. Larry Pollack MD, FACS.

In addition to providing the power of Muscle Rub, which is retained for up to 40 washes, Green Drop's ventilated construction keeps the sleeves and socks odor and moisture-free. The products stretch in length, but not

width, to ensure maximum compression without restricting the range of motion.

"As we age, muscle aches and joint pain become more prevalent, which can inhibit active individuals from enjoying their walking, running, swimming and other sports" said Dr. Larry Pollack MD, FACS.

Leveraging recent advances in science and technology, Green Drop offers a better alternative than the outdated compression sleeves and socks of the past—truly providing long-lasting relief."

Green Drop's compression sleeves and socks can be purchased on the company's website at <https://greendropcompression.com/>.
