

TA RawMaterials Launched by Templeton Apus: A Global Raw Materials News & Intelligence Platform Covering 25 Sectors

Supported by EIT RawMaterials and co-funded by the European Union, TA RawMaterials is a sophisticated Intelligence Platform that covers Raw Materials worldwide.

VIENNA, AUSTRIA, January 27, 2022 /EINPresswire.com/ -- [Templeton Apus GmbH](https://www.templetonapus.com/), the Vienna head-quartered digital news and global intelligence provider, has launched its TA RawMaterials news and intelligence platform. It has been created by a team that wanted to prove that by bringing together the sectors associated with the Raw Materials industry, a global platform could be created that not only furthered the interests of its customers, but that also helped to accelerate the world's transition to sustainable energy.

“

Our aim, aided by support from EIT RawMaterials and co-funding by the European Union, is to create the Number 1 Raw Materials News and Intelligence service worldwide.”

Guy Templeton

[TA RawMaterials provides groundbreaking news and intelligence](#) covering 6 Mining and Metals sectors. It also reports all Raw Materials news and intelligence covering an additional 19 associated sectors. These include the Renewable Energy, Nuclear Energy, Automotive, Aerospace & Defense, Finance, Technology and Transport sectors.

Guy Templeton, CEO, Templeton Apus GmbH said: "Our aim, aided by support from EIT RawMaterials and co-funding by the European Union, is to create the Number 1 Raw Materials News and Intelligence service worldwide.

We believe that we are capable of achieving this goal, as it is the first time that these RawMaterials associated sectors have been pulled together into a single news and intelligence

solution."

Antonis Politis, Business Development Manager, [EIT RawMaterials GmbH](#) said: "TA RawMaterials has a particularly strong focus on Critical Raw Materials (CRMs). It was this factor that resulted in EIT RawMaterials supporting this project as the European Union needs to secure its own supply as the transition towards digital, highly energy-efficient and climate-neutral European economies will lead to a significantly higher demand for CRMs."

The TA RawMaterials news and intelligence platform content includes:

- Global news, intelligence and research on 25 Sectors and Industries connected with the Raw Materials sector. These include Mining & Metals, Renewable Energy, Technology, Automotive, Finance, Aerospace & Defence, Transport and Nuclear Energy
- Daily news, intelligence and research covering 103 Metals and Minerals worldwide
- The daily activities of more than 13,350 Companies worldwide working with the Raw Materials sector and associated sectors, providing time-sensitive and reliable news and intelligence about their activities
- The daily activities of over 4,135 Persons of Special Interest from business and political backgrounds, providing in-depth news and analysis
- Hundreds of Hot Topics connected with the Raw Materials sector and its associated sectors. These include Electric Vehicles, Battery Storage, Solar Power, EV Charging, Batteries, Green Finance, ESG Investing, Recycling, Emissions Trading and Mining Policy
- A research database of over 33,700,000 news and intelligence articles

TA RawMaterials will continue to expand its comprehensive coverage over the next 12 months.
