

# WORLD'S LEADING VITAMIN MANUFACTURER ACHIEVES THE HIGHEST VEGAN LABEL CLAIM

*Premium contract manufacturer for winning supplement brands — NutraStar — is now certified vegan by BeVeg.*

PALM BEACH, FLORIDA, UNITED STATES, November 22, 2021 /EINPresswire.com/ -- Premium contract manufacturer for winning supplement brands and one of the world's top boutique supplement manufacturers — NutraStar — is now certified vegan by BeVeg. It's no coincidence one of the worlds leading vitamin and supplement manufacturer chose the world's leading [vegan certification](#) standard and trademark. To date, BeVeg is the world's only ISO accredited vegan technical standard to exist and considered the most reliable benchmark for vegan integrity in the global marketplace.

As a long-established contract manufacturer, NutraStar produces a wide range of capsules, tablets, powders, soft-gels, and gummies for leading supplement brands. They provide custom formulated capsules, tablets, and powders to growing nutraceutical brands, many of which are known household names for retail private label / white label brands in medicine cabinets at home.

NutraStar, as a manufacturing facility and company, prides itself for maintaining an array of the highest calibre quality certifications in the industry, and is proud to announce its latest addition — BEVEG.

The image is a promotional graphic for NutraStar. At the top, it features the NutraStar logo (a blue stylized 'S' shape) and the text 'NutraStar®'. To the right are two circular logos: 'VEGAN' with a 'V' and 'BeVEG CERTIFIED'. Below this is a collection of supplement containers: a small brown bottle, a white jar labeled 'TRUSTED', a white jar labeled 'YOUR', a white jar labeled 'SUPPLEMENT', a white jar labeled 'MANUFACTURER', and a small white bottle. The background is black with a blue glow at the bottom. Below the product display is a large blue banner with the NutraStar logo and 'NutraStar' text. At the bottom, there are five certification logos in a row: a 'U' in a circle, 'VEGAN BeVEG CERTIFIED', 'USDA ORGANIC', 'FDA REGISTERED FACILITY', and 'NON GMO Project VERIFIED'. Below these logos is a blue horizontal line and the text 'LET'S TALK QUALITY' in blue.

The BeVeg vegan technical standard is owned and managed by a law firm, which brings unprecedented credibility and integrity to the world's first worldwide vegan standard and use of the global [BeVeg vegan trademark](#) is granted only after a rigorous certification audit process.

BeVeg vegan certification requires factory controls to be in place to ensure no animal residue is left so there can be "free-from" animal claims on products, just like there can be gluten-free and Kosher certifications performed at a shared facility. BeVeg keeps the supply chain and manufacturing process honest and transparent, and is the only vegan certification trademark to have the mechanisms in place to ensure and enforce vegan integrity.

NutraStar is a long-established contract manufacturer out of New Jersey, known for award-winning and leading supplement brands. Those brands can now access use of the BeVeg vegan trademark because their manufacturing facility updated their standard operating procedures (SOPs), which ensure Good Manufacturing Practices (GMP) to warrant and ensure vegan label and vegan claim integrity. NutraStar is leading the way and paving the way for other vegan friendly brands to gain their official vegan badge of approval by BeVeg.
