

Tamino announces video posted on El Volcan Property – TINO is Pink Current on OTC

The Video provides details on El Volcan Property and the importance that we have been approved to trade as Pink Current Information on OTC Markets

TORONTO, ONTARIO, CANADA,
November 24, 2021 /

EINPresswire.com/ -- Tamino Minerals, Inc. ("Tamino" or the "Company") (OTC Markets: TINO) November 24, 2021, Mr. Pedro Villagran-Garcia, President & CEO, announces that Tamino continues to be hard at work. We had a fast start to 2021 with excellent results in Q1, Q2 and Q3 through the collective group initiatives of sourcing new acquisitions, and financing and now Pink Current Information on OTC Markets. The Company finally received authorization to trade at a Higher Reporting Tier.

We have posted a new video on Youtube.com that illustrates our flagship project:

<https://youtu.be/TulMe00Jvkc>

We are estimating that we will have a fast start on 2022. The company is not diluting and our latest DTCC Share Position Report shows that the company has 143,811,161 common shares in the float. Our partners Here To Serve (OTC:HTSC) – and their subsidiary Executive Industries will communicate with all parties on Tamino's behalf including a PCAOB auditor and

the securities attorney which are both required to bring Tamino to OTCQB status.

Gold has always been a valuable investment and as “inflation” has become an important factor to consider, we foresee a significant opportunity in 2022 as prices are projected to surge past \$2,000 an ounce at the end of this year. As gold prices begin to trend upwards, investors will begin to flock to the haven of physical gold and mining companies producing & exploring for the ever-sought-after mineral.

On behalf of the Board,

TAMINO MINERALS, INC.

TAMINO MINERALS INC. is exploring for high-grade gold deposits within a prolific gold producing geologic state, Sonora.

On behalf of the Board,

Pedro Villagran-Garcia, President & CEO
