

United States Footwear Market Report, Industry Overview, Growth Rate and Forecast 2021-2026

Looking forward, the United States footwear market is expected to continue its stable growth during the forecast period (2021-2026).

STE R SHERIDAN, WYOMING, UNITED STATES, November 24, 2021

/EINPresswire.com/ -- According to IMARC Group's latest report, titled "[United States Footwear Market: Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026](#)", the United States footwear market is currently witnessing stable growth in 2020. Footwear is a protective covering for the feet typically made of leather, rubber, plastic, jute, etc. Wearing them provides optimum support to the feet and makes locomotion easier. Moreover, footwear also cushions the feet against injuries caused by environmental adversities. Over a period of time, footwear styles and quality have evolved alongside changing aesthetics and fashion trends. Presently, consumers opt for footwear with advanced technical fabrications and features that provide maximum comfort while following the ongoing style trends.

The constantly evolving fashion trends in the United States are primarily driving the footwear market. In line with this, there is a continuous launch of innovative product variants with trending designs and styles in the market, as the country is an early adopter of the latest fashion trends. Besides this, the rising availability of a wide range of footwear across various e-commerce and brick-and-mortar retail channels is further providing thrust to the market growth. Additionally, the growing demand for superior quality footwear is encouraging product innovations that emphasize on unique designs and comfort for the feet. Furthermore, several leading companies are developing smart product variants with sensors and trackers to expand their product portfolios. Various other factors, including increasing R&D activities to introduce sustainable footwear, like biodegradable shoes and vegan stilettos, are expected to further

strengthen the United States footwear market in the coming years. Looking forward, the market is expected to continue its stable growth during the forecast period (2021-2026).

As the novel coronavirus (COVID-19) crisis takes over the world, we are continuously tracking the changes in the markets, as well as the industry behaviors of the consumers globally and our estimates about the latest market trends and forecasts are being done after considering the impact of this pandemic.

Market Segmentation:

Breakup by Product:

Non-Athletic Footwear

Athletic Footwear

Breakup by Material:

Rubber

Leather

Plastic

Fabric

Others

Breakup by Distribution Channel:

Footwear Specialists

Supermarkets and Hypermarkets

Departmental Stores

Clothing Stores

Online Sales

Others

Breakup by Pricing:

Premium

Mass

Breakup by End User:

Men

Women

Kids

Breakup by Region:

North America (United States, Canada)

Europe (Germany, France, United Kingdom, Italy, Spain, Others)

Asia Pacific (China, Japan, India, Australia, Indonesia, Korea, Others)

Latin America (Brazil, Mexico, Others)

Middle East and Africa (United Arab Emirates, Saudi Arabia, Qatar, Iraq, Others)
