

# Advanced Gear Shifter System Market by Component (CAN Module, ECU, and Solenoid Actuator) 2026

*The advanced gear shifter system is an electronically controlled system, which is responsible for engagement and disengagement of gear.*

PORTLAND, OR, UNITED STATES, November 24, 2021 /EINPresswire.com/ -- The advanced gear shifter system is an electronically controlled system, which is responsible for engagement and disengagement of gear. It uses a lever and an electronic system to engage /disengage or change gears according to the requirement of the driver. In a manual transmission system, gear shifting can be a tiring task, this is eliminated by the advanced gear shifter system. This system identifies when the driver is changing the gear and an electric system operates the clutch and a solenoid actuator to operate gear engagement, disengagement, and shifting. This has positively impacted the Advanced Gear Shifter System Market.

Download Report (350 Pages PDF with Insights, Charts, Tables, Figures) at <https://www.alliedmarketresearch.com/request-sample/5592>

Major Market Players:

- ATSUMITEC CO.LTD.
- Delta Kogyo Co., Ltd.
- Bissmann Group Automotive
- Eujikiko Co. Ltd.
- GHSP
- Kongsberg Automotive
- Leopold Kostal GmbH & Co. KG
- M&T ALLIED TECHNOLOGIES.CO.,LTD.
- Orscheln Products
- Sila Group
- ATSUMITEC CO.LTD

The factors that drive the market include increasing demand for vehicles with semi-automatic and automatic transmission, increase in the usage of the shift-by-wire, and accurate and quick responding technology of this system. In addition, the factors that restrain the advanced gear shifter system market growth are the complexity and less reliability of the system and high price compared to normal gear shifter. However, increasing preference for automatic and hybrid

transmission in developing countries and haptics shifters in future vehicles are expected to create opportunities for the market in the coming years.

## KEY MARKET SEGMENTS

### By Technology

- Automatic Shifter
- Shift-by-Wire

### By Component

- CAN Module
- Electronic Control Unit (ECU)
- Solenoid Actuator

### By Vehicle

- Passenger Car
  - o Economy Class
  - o Mid-Size Class
  - o Luxury Class
- Commercial Vehicle

### By Electric- Vehicle

- Battery Electric Vehicle
- Fuel Cell Electric Vehicle
- Plug-In Hybrid Electric Vehicle

During the forecast period, the advanced gear shifter system market for shift-by-wire technology segment is estimated to be largest. The use of shift-by-wire technology in mid-size and luxury vehicles is expected to drive the market. Also, significant rise in the sales of modern green vehicles in developing countries like China, India, and Brazil is another factor that drives the market.

The major companies profiled in the report for the market include Delta Kogyo Co., Ltd., Eissmann Group Automotive, Fujikiko Co. Ltd., GHSP, Kongsberg Automotive, Leopold Kostal GmbH & Co. KG, M&T ALLIED TECHNOLOGIES.CO.LTD., Orscheln Products, and Sila Group. These players have adopted different strategies such as expansion and new product development to gain significant Advanced Gear Shifter System Market share.

## KEY BENEFITS FOR STAKEHOLDERS

- This study comprises analytical depiction of the Advanced Gear Shifter System Market with current trends and future estimations to depict the imminent investment pockets.
- The overall market potential is determined to understand the profitable trends to gain a stronger foothold Advanced Gear Shifter System industry.
- The report presents information related to key drivers, restraints, and opportunities with a

detailed impact analysis.

- The Advanced Gear Shifter System Market is quantitatively analyzed from 2019 to 2026 to benchmark the financial competency.
- Porter's five forces analysis illustrates the potency of the buyers and suppliers in the industry.
