

Directed Energy Weapons Market Growth, Sales Revenue, COVID-19 Market Scenario and Industry Expansion Strategies to 2027

Directed Energy Weapons Market Size – USD 13.86 billion in 2019, Market Growth – CAGR of 26.8%.

VANCOUVER, BRITISH COLUMBIA, CANADA, November 24, 2021

/EINPresswire.com/ -- The Global Directed Energy Weapons (DEW) Market is forecasted to be worth USD 93.20 billion by 2027, according to a current analysis by Emergen Research. The market is remarkably being driven by the factors such as increasing adoption of the directed energy weapons to destroy or damage the rockets, drones, mortar-launched explosives and any other aerial threats, higher investment in the military bodies & defense intelligence sectors, and technological development in the laser-based target focused weapons.

The Global [Directed Energy Weapons Market](#) research study published by Emergen Research is an extensive collection of insightful information about the Directed Energy Weapons industry. The report covers the Directed Energy Weapons Market segmentation along with a detailed outline of the Directed Energy Weapons market size with regards to volume and valuation. The report provides comprehensive coverage of the Directed Energy Weapons market scenario for the current period and forecast timeline of 2020-2027. The Directed Energy Weapons market report contains an in-depth analysis of the historical, current, and projected revenues for every industry vertical, segment, end-use industries, applications, and regions.

Global Directed Energy Weapons Market Scenario 2020-2027

The Global Directed Energy Weapons Market report presents comprehensive information

covering insightful data for businesses and investors for the time period of 2020-2027. The report studies the historical data of the Directed Energy Weapons market and offers valuable information about the key segments and sub-segments, revenue generation, demand and supply scenario, trends, and other vital aspects. The report offers an accurate forecast estimation of the Directed Energy Weapons industry based on the recent technological and research advancements. It also offers valuable data to assist the investors in formulating strategic business investment plans and capitalize on the emerging growth prospects in the Directed Energy Weapons market.

Further key findings from the report suggest

In June 2020, Applied Technology Associates (ATA) revealed a contract for developing a target acquisition & tracking platform for the installation on a Stryker military ground vehicle being a part of U.S. Army initiative in order to increase the protection of the soldiers using laser weapon systems.

The defense exhibits a higher count of usage and investment in the ongoing research & development of directed energy weapons (DEW). The growing interest in countering the weaponry actions & drones or UAV information carriers sent from the rivals are broadening the market outreach. The Defense sub-segment in the application segment had 78.6% market share in the year 2019.

North America owing to its leading investment in the defense & homeland security budgets, especially in the United States, and higher development in the information technology & microelectronics industry, is expected to fuel regional market growth substantially.

Competitive Outlook:

The global Directed Energy Weapons market is highly consolidated due to the presence of a large number of companies across this industry. These companies are known to make hefty investments in research and development projects. Also, they control a considerable portion of the overall market share, thus limiting the entry of new players into the sector. The global Directed Energy Weapons market report studies the prudent tactics undertaken by the leading market players, such as partnerships and collaborations, mergers & acquisitions, new product launches, and joint ventures.

Key Companies in the market include: The Boeing Company, BAE Systems, Northrop Grumman Corporation, Lockheed Martin, L-3 Communications Ltd, Moog Inc, Thales Group, Saab AB, and Israel Aerospace Industries, among others.

Global Directed Energy Weapons Market Geographical Landscape - Synopsis:

The report closely studies the growth trajectory of the global Directed Energy Weapons market. It

brings to light the global dominance of the leading regional segments, including North America, Asia Pacific, Europe, Latin America, and the Middle East & Africa.

The study elaborates on the crucial information pertaining to the regional market share. It simultaneously focuses on the significant details about the growth patterns of each regional market.

Moreover, the report encases an exhaustive geographical study of the market, emphasizing the business growth prospects and market barriers for each of the key market regions.

For the purpose of this report, Emergen Research has segmented into the global Directed Energy Weapons (DEW) Market on the basis of Type of Weapons Systems, Application, End-Users, Product, and Region:

Type of Weapons Systems Outlook (Revenue: USD Billion; Volume: Thousand Units; 2017-2027)

Laser

Fiber Laser

Free Electron Laser

Solid-state Laser

Chemical Laser

High-Power Microwave (HPM)

High-Power Sonic (HPS)

Particle Beam

Application Outlook (Revenue: USD Billion; Volume: Thousand Units; 2017-2027)

Defense

Homeland Security

End-Users Outlook (Revenue: USD Billion; Volume: Thousand Units; 2017-2027)

Marine-based

Land Vehicles

Airborne

Gun Shot

Table of Content

Chapter 1. Methodology & Sources

1.1. Directed Energy Weapons Market Definition

1.2. Research Scope

1.3. Methodology

1.4. Research Sources

1.4.1. Primary

1.4.2. Secondary

1.4.3. Paid Sources

1.5. Directed Energy Weapons Market Estimation Technique

Chapter 2. Executive Summary

2.1. Summary Snapshot, 2021-2028

Chapter 3. Key Insights

Chapter 4. Directed Energy Weapons Market Segmentation & Impact Analysis

4.1. Directed Energy Weapons Market Material Segmentation Analysis

4.2. Industrial Outlook

4.2.1. Directed Energy Weapons Market indicators analysis

4.2.2. Directed Energy Weapons Market drivers analysis

Key questions addressed in the report:

What are the key factors driving the global Directed Energy Weapons market?

Who are the key manufacturers in this market space?

Who are the distributors, traders and dealers of this market?

What are the market opportunities and risks affecting the performance of the vendors in the global Directed Energy Weapons market?

What are the sales and revenue estimations for the top manufacturers in this market over the projected timeline?
