Market Overview:

Consumer goods are goods designed to be used by individuals. Processed foods and beverages, electronic goods, cosmetics, toiletries, home appliances, and household cleaning products are among the items on the list. There are two types of items in this industry: durable and non-durable. Electronics and kitchen appliances are examples of durable goods with a longer lifespan. Fast-moving consumer goods (FMCGs) with a shorter life period are known as non-durable goods. The rise in popularity of social media, 3D printing technology, digital marketing, and the sudden growth of e-commerce platforms (due to Covid 19) are just a few of the important factors that have fueled the industry's expansion.
