- 1) The Covid-19 pandemic and followed by lockdown has affected several manufacturing industries.
- 2) The prolonged lockdown resulted in a disrupted supply chain and increased the prices of raw materials.
- 3) However, as the world has been recovering from the pandemic, the market is estimated to get back on track.

Technological progress, cost containment, and increased access will in the near future be an integral part of healthcare reforms. Digital health and telehealth have taken a front seat in the ongoing outbreak.

COVID-19 re-emphasized the importance of remote diagnosis, care, and consultation. Over the past few years, regulatory and behavioral barriers have slowed Telehealth growth.
