

# Pivot Topicals Envisions a World Free From Pain

*Pivot's patented topical formula is all-natural, micro-targets with immediate results.*

FAIRFIELD, CA, UNITED STATES ,  
November 24, 2021 /

EINPresswire.com/ -- [Pivot Topicals](#) has launched their patent-pending topical gel developed to provide immediate and potent pain relief, created by biochemist and drug formulation expert Dr. Michael Oda, Ph.D. He was inspired to create the product to help

his parents who were suffering from debilitating pain. Employing his proprietary delivery system, he was able to create a topical pain relief formula that literally requires as little as a single drop and works in seconds. With the astounding and successful results he had with his

“

There was a moment that I knew that I had to do something. It was seeing my father use a walker – this was jarring – he hadn't ever needed this kind of assistance before...”

*Dr. Michael Oda, Ph.D.*

parents, Dr. Oda turned his attention to bringing this one-of-a-kind safe, natural, and effective product to the millions of people that it could help live their best lives.

Pivot Topicals® is the result of Dr. Oda's philosophy that the best way to solve biological problems is by leveraging natural processes. He set aside a year of his life and put his 30 years of formulation chemistry experience to work to adapt his proprietary transdermal delivery system to create a solution to help his parents. The result was Pivot Topicals®. Pivot is the combination of advanced

formulation chemistry with natural pain-relieving solutions to produce a one-of-a-kind formula that targets and eliminates intense inflammation-based pain.

“There was a moment that I knew that I had to do something. It was seeing my father use a walker – this was jarring – he hadn't ever needed this kind of assistance before,” says Dr. Michael Oda, Ph.D., founder and creator of Pivot Topicals®. “The basis of Pivot is rooted in my research on cardiovascular disease, which finds its origins in the defective transport of fats. This led me to

Pivot Topicals is a United States-based company based on a transdermal delivery system that leverages the body's chemistry to safely and effectively conveys compounds across skin.

investigate how our body properly delivers compounds, which inspired me to develop a delivery system that uses our chemistry to deliver compounds safely throughout the body.”

#### User Experiences:

Inflammation-based pain prevents people from being active and mobile. Ben has benefitted from applying Pivot after suffering from pain in both shoulders for eighteen (18) months. After multiple MRI's and different diagnoses, he discovered his shoulders were inflamed from overuse. Without success, he tried other topical pain relief creams. A friend recommended Pivot and he finally got relief. Ben is now back to golfing, lifting weights, and living the life he loves.

Juli is an LPGA teaching golf professional and Division 1 college golf coach. She has been playing golf for over 25 years and has a passion for physical fitness. All of the years of being active has led to arthritis in her wrist and hand. A friend recommended Pivot, and when she tried it, the pain in her hand and wrist disappeared. Now Juli can get back on the course, pain free.

Pivot's delivery technology allows the gel to work with the body to rapidly pass through the skin and target inflammation directly. This translates into precise targeting, while using less product for a greater effect!
