

Think Like A Molecule: Seeking Inspiration in the Structures of Thought

Despite their complex structures, molecules most likely do not take time to ponder the ways they fit into the big scheme of things.

GUADALAJARA, JA, MEXICO, November 25, 2021 /EINPresswire.com/ -- Chuck Champlin's *Think Like A Molecule: Seeking Inspiration in the Structures of Thought* is a fascinating exploration of life's smallest building blocks that constitute our colossal physical reality. Published by [Authors Press](#), the book seeks inspiration through deep and imaginative journeys from within the vast and varied realms of the cosmos themselves through the exploration of molecules.

hihh

The structural knowledge of matter starting at the atomic level has equipped physicists and chemists with the ability to significantly alter the quality of our lives, our architecture, our

“

“Casting our minds into realms of the very small – or out over vast distances to the stars – is a useful exercise.”

Chuck Champlin

powers

of computing, and so much more. The author argues that for the rest of us outside the scientific community, seeking insight, analogy, and metaphor in the physical world can be inspirational in our lives, and in our thoughts. Champlin writes, “Casting our minds into realms of the very small – or out over vast distances to the stars – is a useful exercise. The effort can clearly bear intellectual

fruit for all of us, by prompting mind-stretching analogies and new insights, suggesting new shapes and possibilities in our living world.”

Chuck Champlin has been a writer and journalist; a corporate communications executive for The Walt Disney Company; a bicycle inventor; a rock drummer, singer, and songwriter; and a leader in Toastmasters clubs (public speaking) and Optimist Clubs (bringing out the best in kids). He is married and has four grown children. In his work with various volunteer organizations, Champlin promotes the hopeful idea that every human being has creative contributions to make that will increase peace and understanding in the world.
