Words from kicksta themselves

“As each account is different, this number will vary. If you're consistently posting high-quality content you're going to see a higher number of Instagram followers. We can't guarantee any specific number of followers because these are real people who have to decide themselves whether or not to follow you. Please don't believe any company that guarantees a specific number of Instagram followers – it's just not possible.”

kicksta pricing plan

The other kicksta pricing plan is the one of \$49 and \$99 . All plans will get users results but they

must put in the work of creating good content for followers. This way users can build trust with their audience.
