"Superbo is the right choice for any enterprise that is looking to digitally transform and engage its users either internally or externally. Spanning from Telcos, to financial institutions all the way to energy companies, media houses and super markets, Superbo has been showing a phenomenal custom way in achieving fast, smooth and innovative deliveries in diverse geographies in Europe, Middle East and Africa. We are poised to further expand our Africa and GCC footprint by engaging more enterprises and digitally transform as well as enhance the customer experience needs. There is absolutely no limit when it comes to digital appetite and we are here to quench this thirst in an amazing way", said Demetri Papazissis, CEO and co-founder of Superbo.
