

THE PLAN BY DAN HOLLINGS: PASSIVE CRYPTO INCOME FOR AVERAGE FAMILIES

One program has been a game-changer for crypto veterans and newbies alike and it's called The Plan by Dan Hollings.

LOS ANGELES, CA, UNITED STATES,
November 28, 2021 /

EINPresswire.com/ -- With so many so-called crypto gurus and innovations nowadays, it can be difficult to filter through all the noise in this fast-moving industry. But, one program has been a game-changer for crypto veterans and newbies alike and it's called The Plan by Dan Hollings. This program officially launched on November 27, 2021, and it has become the new and easy way to truly create passive income for average families in

2021. While The Plan is officially launching in a massive way, thousands of students have already battle-tested its simple, automated cryptocurrency bot strategies in the last several months during three (3) beta test launches. Prior to this project, Dan Hollings' has been teaching people

how to make money online for over a decade and is the marketing genius behind the popular documentary, "The Secret."

“

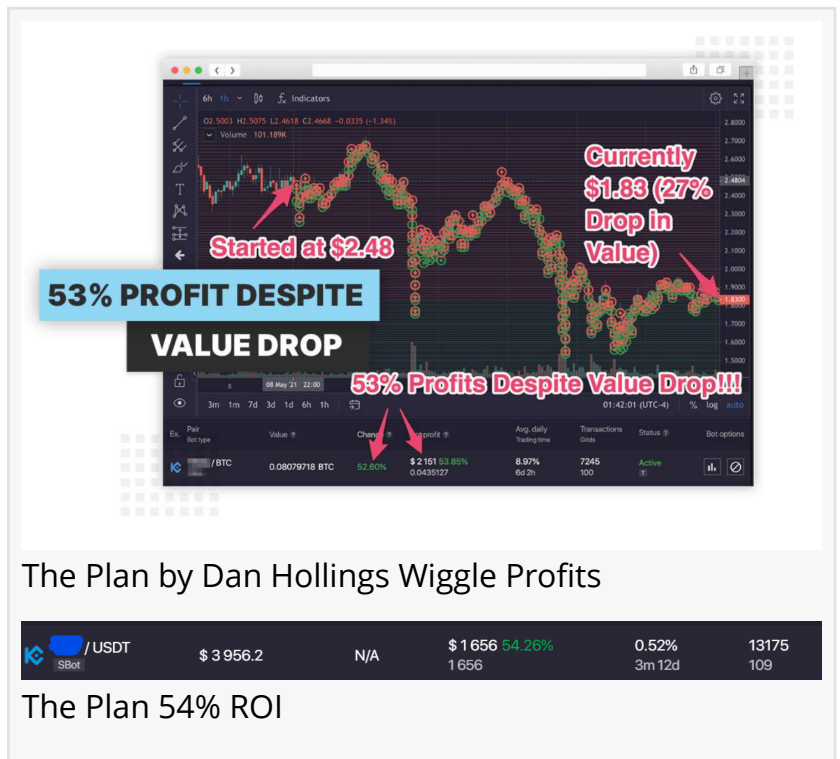

The people that are making smart decisions on how they are investing and growing their cryptocurrency portfolios are planting seeds right now and they are going to bear some great fruits in the future”

Anna Dornier

One of his beta students, Anna Dornier, who jumped in as early as the July 2021 beta group opened is now seeing exponential results by simply following phase 1 of Dan Hollings' The Plan diligently. To read about her full review, experience, and updates since she started, visit [The Plan By Dan Hollings Review by Anna Dornier](#).

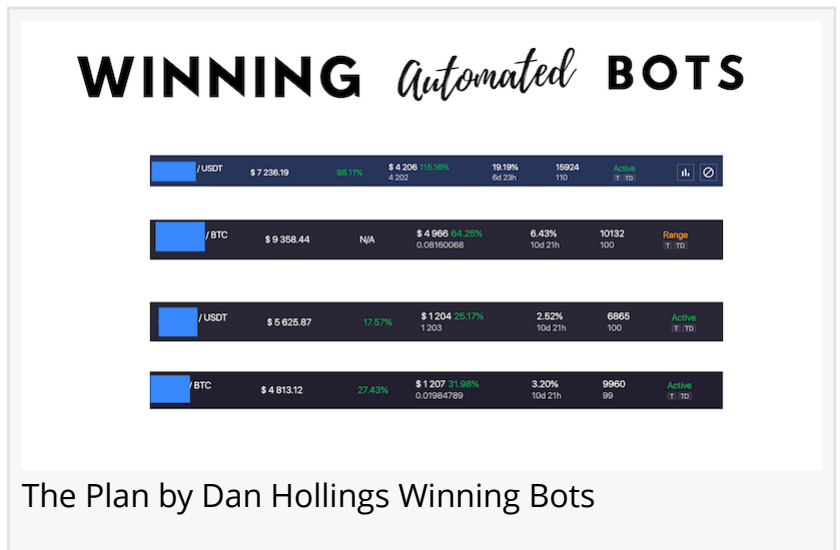

Anna continued to track her results for the last 4 months

and her portfolio of trading bots consists of bots that are making anywhere from \$40 to \$200 per

day. She continues to explain that she has only seen these returns grow over time even though the last 2 crypto “crashes” she’s been through.

“Once I started seeing my own results and realized that I can easily set up my bots within 5 minutes once I’ve learned Dan’s strategy, I was all in,” remarks Anna. “The Plan’s strategy is really simple and once people know the basics, it all starts to make sense. I’m glad I took advantage of this opportunity because I can really see any average family benefiting from The Plan,” Anna continued.

The Plan by Dan Hollings Winning Bots

The Plan by Dan Hollings combined with the exponential growth that the blockchain and cryptocurrency industries are undergoing is changing the world’s economic landscape. “The people that are making smart decisions on how they are investing and growing their cryptocurrency portfolios are planting seeds right now and they are going to bear some great fruits in the future,” Anna says.

Dan Holling’s automated cryptocurrency bot strategy is one of a kind. If you’d like to get a sneak peek of how it works by doing tiny, minute-to-minute transactions and profit for you while you sleep or do other things you love, be sure to download Dan’s free report, [“The Wiggle Profits Report.”](#) One reason Anna is talking about her ongoing progress now is that she realizes how big of an opportunity this is for the average family to grow their wealth especially for those who don’t want to learn to trade cryptocurrencies and are in no position to take trading risks.

As always, it is good practice to consult a certified financial advisor before investing.
