

If WISE Focuses On Optimizing The Mind, It Will Be Focusing On Optimizing & Accomplishing All Of Its Objectives And More

Human nature is messed up and not much is being done about it. As we do not know how to optimize the mind we are unable to optimize human nature.

EINPresswire.com/ -- To create a thriving, happy, healthy, and prosperous world unmute [wisdom](#). To unmute wisdom, unmute and optimize the [mind](#).

Here is what we have found after researching wisdom and the mind for over 50 years.

By clarifying what the mind is, its attributes like imagination, intelligence, wisdom, happiness, health, relationships, emotions, education, etc., will all become clear to understand and optimize. The first step to understand is that it is not essential to know the mind in order to master it. Mastering the mind involves figuring out how to optimize the mind. Let us focus on figuring out how to optimize the mind.

Compare the research of the mind with researching water. The researchers seeking to know water took a different

The screenshot shows a YouTube video player interface. At the top, there is a title 'WISDOM POWER CLUB' and a subtitle 'WHICH LEVEL OF THE BRAIN ARE YOU LIVING FROM?'. Below the title is a small table with four rows: 'Guru' (+2), 'Adult' (+1), 'Child' (-1), and 'Fetus' (-2). To the right of the table are four small portraits of men. Below the table is a graphic with the text 'Mind Brain' and an illustration of a brain with a pair of glasses. To the right of this graphic is a 'Mission Statement' box. Below the 'Mission Statement' box is the text 'Wisdom power is your (+2) guru/emotionally-healthy self-image power.' and a URL: <https://www.youtube.com/watch?v=nmzwl-WdMww>. At the bottom of the video player, there is a small caption: 'Providing you with an effective new innovation of your brain and mind observing each other from an inside in perspective.'

route. They did not ask what water is. They researched the properties of water and how these properties could be harnessed. Today from the water wheel, we have gone to harnessing the energy of the hydrogen atom. Imagine if the scientists were only researching what water is; where would the water industry be today. Even if we do know what the mind is, we will only benefit from harnessing its properties. Harnessing the properties is what counts in terms of actual benefits. Shouldn't we take the water route to research the mind and wisdom?

I am an activist for perfecting emotional health, as emotional health perfects the mind.

What we need is going full throttle for optimizing the mind through emotional health.

Human nature is messed up and not much is being done about it. As we are not focused on how to optimize the mind we are unable to optimize human nature.

All that the world needs to change from the current chaos into a thriving world is to unmute just two words, wisdom and mind.

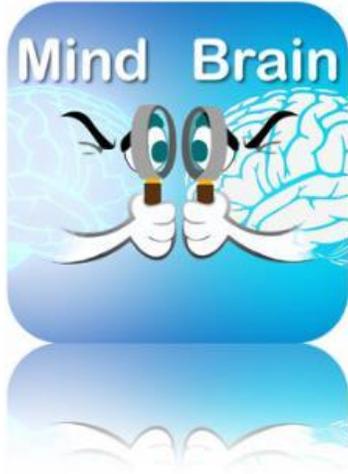

The next step is to design education based on the new definitions and understanding of wisdom and the mind.

Not Knowing Wisdom Is The Mother Of All Crises. Not Knowing Wisdom Stems From Being Ignorant About The Mind.

From the current ignorance-powered world, WISE can power the world with wisdom!

Creating a wise world is the single most significant achievement in history ever that WISE can accomplish.

Our Education System Has Cutting Edge Mind Education While Brain Education Is Under the radar Screen.

The most effective contribution for creating a thriving world that WISE can achieve is to liberate the world from the tragic ignorance of not knowing, 'WHAT IS THE MIND.' The mind is the most crucial factor of life, yet we know so little about it that there is no topic on the mind in High School psychology textbooks.

Our experts have lumped the mind that generates professional expertise and the brain that causes emotional health, which is the sauce of wisdom, as just the single entity of the mind, even though the brain and mind are interdependent but separate. Thus the brain is under the radar screen of our experts. So all the focus is on mind education while brain education is not only ignored, the brain is miseducated.

As the brain is messed up, the world's emotional health is messed up, blocking wisdom and messing up every sector of life. Just imagine if WISE liberated the world from the ignorance of not knowing what the mind is. WISE can free the world from the trap of ignorance and all its adverse consequences.

WISE can empower minds with optimized emotionally super healthy brains by establishing an Emotional Health and Brain Education Industry.

Just imagine the first in the world Emotional Health and Brain Education Institution founded by WISE.

WISE can make the world powered with wisdom creating trillion-dollar surpluses and priceless health and happiness from the current ignorance-powered world.

I will be honored to hand over all my innovations with the world-changing applications for WISE to use as their own.
