

Owens Electrical Contractors Issues Tips for South Louisiana Residents to Winterize Their Homes

Leading electrical contractor in the greater Baton Rouge area, is issuing tips for residents of south Louisiana on how they can winterize their homes.

DENHAM SPRINGS, LA, UNITED STATES, November 28, 2021 /

EINPresswire.com/ -- [Owens Electrical Contractors](#), a leading electrical contractor in the greater Baton Rouge area, is issuing tips for residents of south Louisiana on how they can winterize their homes so that they are ready when the cold weather arrives.

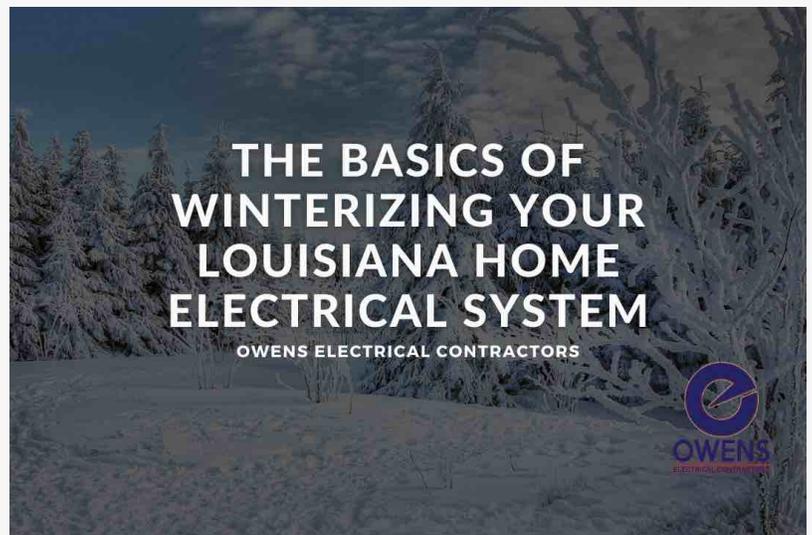

The company has over 25 years of experience installing and repairing all types of electrical systems, including generators and commercial installations.

“

When winter comes, South Louisiana residents can minimize the damage from cold weather by taking a few simple steps to winterize their homes.”

Kayte Owens Hood - Owens Electrical Contractors

cold weather.

Owens Electrical Contractors Issues Tips for South Louisiana Residents to Winterize Their Homes

Owens's team includes licensed electricians with decades of expertise in residential wiring repairs and inspections and commercial construction projects involving high voltage power lines.

They offer free estimates to customers interested in any electrical work or other services provided by their company.

The article offers easy tips and tricks that homeowners can do to winterize their homes and avoid damage caused by

"When winter comes, South Louisiana residents can minimize the damage from cold weather by taking a few simple steps to winterize their homes," says Kayte Owens Hood, owner of Owens Electrical Contractors.

"Our suggestions will help keep your home or business safe, warm, and comfortable this winter."

The most important thing that Owens Electrical Contractors suggest is checking the batteries on all smoke detectors and carbon monoxide detectors. They should be replaced every year with fresh batteries, which can easily be purchased at a local store or hardware store.

"During the winter months, we see an increase in the use of space heaters and other appliances that emit carbon monoxide," Owens continued. "Checking the batteries on your smoke and CO detectors should be an ongoing part of your winter safety routine."

Owens Electrical Contractors say that a secondary benefit to checking these devices is catching fire early before it becomes out of control, saving lives and preventing property damage.
