

# Brook Furniture Rental Optimizes Customer Delivery with Descartes Route Planner™

*Working with Descartes, Brook gives customers real-time insights into the status of their orders*

LAKE FOREST, IL, UNITED STATES, December 2, 2021 /EINPresswire.com/ -- [Brook Furniture Rental](#), a nationwide online service providing furniture, décor, and housewares via its hassle-free rental model, is now using Descartes Route Planner™ to offer custom solutions that meet new demands. Working with [Descartes Systems Group](#), a global leader in uniting logistics-intensive businesses in commerce, Brook is streamlining its delivery operations while enhancing the customer experience through automated route planning and execution.

Now more than ever, Brook customers can stay informed on their delivery orders and follow along via custom notifications, updated ETAs, and real-time status alerts. The Track-My-Truck feature, for example, frees customers from the unpredictability of delivery windows—by following their unique link customers can check in on the status of their delivery and plan accordingly. Descartes' technology enables Brook to be as communicative and responsive as possible en route to satisfying the unique needs of customers across the country.

**“**Our work with Descartes allows us to give customers the efficiency and transparency they expect and deserve.”  
*Nathan Sanders, President & CEO at Brook Furniture Rental*

“Our customers expect to be in-the-know when it comes to their orders, especially when it impacts their home and their lifestyle,” said Nathan Sanders, President & CEO at Brook Furniture Rental. “Our work with Descartes allows us to give customers the efficiency and transparency they expect and deserve.”

Descartes Route Planner™ supports companies with dynamic delivery appointment scheduling requirements by offering flexible, optimal, and reliable time windows and delivery options. The cloud-based solution coordinates drivers, delivery team members, and distribution centers to help ensure that routes are executed according to plan and exceptions are handled efficiently.
