

Steam Autoclaves Market Report 2021-26: Size, Share, Trends, Analysis and Outlook

SHERIDAN, WYOMING, UNITED STATES, December 1, 2021 /EINPresswire.com/ -- According to the latest report by IMARC Group, the [global steam autoclaves market](#) exhibited moderate growth during 2015-2020. Looking forward, the market is expected to grow at a CAGR of around 7% during the forecast period (2021-2026),

We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Steam Autoclaves

A steam autoclave is a machine that uses high steam and [pressure](#) for sterilizing industrial equipment and machinery. It is also used for decontaminating surgical and laboratory equipment, solids, liquids, and hollow surfaces. The items are exposed to high steam, pressure, and temperature to kill the harmful pathogens, which are impervious to boiling [water](#) and powerful detergents. Steam autoclaves include a control system, thermostatic trap, safety valve, waste-water cooling mechanism, vacuum system, and steam generator. These autoclaves are available in various shapes and sizes, such as table-top, vertical, horizontal, floor standing, etc.

Market Trends

Significant growth in the medical sector is primarily driving the market for steam autoclaves. Moreover, the increasing instances of healthcare-associated (HIAs) infections have escalated need for steam autoclaves to sterilize medical equipment and prevent cross-transmission. Furthermore, steam autoclaves also assist in the treatment and proper disposal of biohazardous and medical waste. Besides this, several advanced variants are being launched that are easily transportable, offer improved sterilization capabilities, and require minimum space, thereby

further augmenting the market growth. In the coming years, the rising adoption of steam autoclaves in the aerospace and aviation sectors to process high-quality polymer structural components will continue to drive the market growth on a global level.

The report has segmented the market on the basis of configuration, technology, application and geography.

Breakup by Configuration:

- Table Top Steam Autoclaves
- Vertical Steam Autoclaves
- Horizontal Steam Autoclaves
- Others

Breakup by Technology:

- Gravity Displacement
- Pre-Vacuum
- Steam Flush Pressure Pulse

Breakup by Application:

- Medical
- Laboratory
- Others

Breakup by Geography:

- North America (U.S. & Canada)
- Europe (Germany, United Kingdom, France, Italy, Spain, Russia, and Others)
- Asia Pacific (China, India, Japan, South Korea, Indonesia, Australia, and Others)
- Latin America (Brazil, Mexico)
- Middle East & Africa

Competitive Landscape:

The report has also analysed the competitive landscape of the market with some of the key players being Accumax India, Astell Scientific Ltd., Belimed GmbH (Metall Zug AG), BMM Weston Ltd., Consolidated Machine Corporation, Getinge Infection Control AB, LTE Scientific Ltd., Matachana, Priorclave Ltd., Steris Corporation, Tuttnauer and Zirbus technology GmbH.

Key highlights of the report:

Market Performance (2015-2020)

Market Outlook (2021- 2026)

Porter's Five Forces Analysis

Market Drivers and Success Factors

SWOT Analysis

Value Chain

Comprehensive Mapping of the Competitive Landscape

About Us

IMARC Group is a leading market research company that offers management strategy and market research worldwide. We partner with clients in all sectors and regions to identify their highest-value opportunities, address their most critical challenges, and transform their businesses.

IMARC's information products include major market, scientific, economic and technological

developments for business leaders in pharmaceutical, industrial, and high technology organizations. Market forecasts and industry analysis for biotechnology, advanced materials, pharmaceuticals, food and beverage, travel and tourism, nanotechnology and novel processing methods are at the top of the company's expertise.
