Growth in purchasing power and consumer investing in recreational activities drive growth of the global trekking poles market. Rise in camping sites, field trips, and outdoor activities boost demand for trekking poles. In addition, increase in snow sports have contributed toward growth of the global market.

However, quality of trekking poles can create a threat to the global market as they are easily damaged and their sharp tips affect vegetation. Rise in tourism and travel industry and boost in e-commerce industry also greatly contributes toward the market growth. Furthermore, rise in popularity of trek apps, and trail series increases demand for trekking poles. Launch of

innovative products with upgraded versions create opportunities for the market growth.

In addition, rise in awareness regarding benefits of trekking such as improvement in mental and physical health; reduced stress; prevention of diseases such as diabetes and blood pressure; and increase in fitness supports growth of the global trekking market.
