GUADALAJARA,, JA, MEXICO, November 30, 2021 /EINPresswire.com/ -- Mark A. Vogel's The Adventures of Professor Poodle & Auggie: Let's Collect the Alphabet is an illustrated [children's](#) book that provides a fun and clever way for kids to learn about the alphabet. Published by [Authors Press](#), the book is the author's third publication of the same stylistic structure.

The Adventures of Professor Poodle and Auggie features two adorable canine characters: Professor Poodle and Auggie. Their adventure starts when they decide to search for all the letters in the alphabet. Subtle and oftentimes nonsensical, the association between the letters of the alphabet and the specific objects provides a sense of unpredictability and wonder. The contrasting personalities of the two characters add an extra dimension to the structural integrity of the book.

“

“Auggie!” said Professor Poodle. “Let’s see if we can find all the letters in the alphabet.”

Okay, Professor Poodle. I think I see A hiding in that pile of hay.”

Mark A. Vogel

The US Review of Books writes, “Since the letters form the basis for all our language learning, Vogel's book provides accessible introductions to their appearance and some of the words

associated with them. It is an especially recommended exploration for preschoolers, offering education through enjoyment.”

Mark Vogel was born in Seymour, Indiana, and moved to Pinellas Park, Florida when he was 3 years old. Mark now lives in Chesapeake, Virginia with his wife Grace. Mark first started writing children's stories in 2011 and published his first book in 2012. Mark believes that his books will help children to learn the alphabet and numbers in easy-to-understand and fun stories with the turn of each rhyming page.
