VANCOUVER, BC, CANADA, December 1, 2021 /EINPresswire.com/ -- The [global functional ingredients market size](#) reached USD 67.94 Billion in 2020 and is expected to register a revenue CAGR of 6.3%, during the forecast period, according to latest analysis by Emergen Research. Some of the major factors driving global functional ingredients market revenue growth are

rising demand for nutraceuticals for disease risk reduction and increasing demand for functional ingredients in personal care and pharmaceutical industries. Increasing demand for probiotics-based food and beverages is also expected to boost revenue growth of the market going ahead.

Rising demand for nutraceuticals for disease risk reduction is expected to augment market growth in the near future. Nutraceuticals are food-derived products that are taken in tablet, capsule, and liquid forms and offer physiological advantages. Nutraceuticals help maintain good health and reduce the risk of diseases. Increasing demand for functional ingredients in personal care and pharmaceutical industries is expected to boost market revenue growth going ahead. Functional ingredients are used in the pharmaceutical industry as materials for tablet surface coating and in the cosmetics sector for manufacturing of creams as well as other personal care and grooming products. Availability of demographic-specific probiotics, including for different genders and geriatrics, differentiates the probiotics business. Rising demand for probiotic-based foods and beverage products is expected to continue to drive market revenue growth over the forecast period.
