

# TeleMed2U Celebrates the First Anniversary of Austin-based Company Acquisitions: Medzino Health and Specialty Clinic

*TeleMed2U, a leading telemedicine company from Roseville, CA, celebrates the 1st anniversary of acquiring the mental health brand Specialty Clinic and Medzino.*

AUSTIN, TEXAS, UNITED STATES, December 1, 2021 /EINPresswire.com/ -- [TeleMed2U](#), a leading telemedicine company operating in Roseville, California, celebrates the one-year

anniversary of acquiring its Austin-based brands, Medzino Health, a direct-to-consumer digital health company, and [Specialty Clinic](#) of Austin, an outpatient psychiatric service. In the first year of integration, the company has expanded its behavioral health reach beyond Texas and now serves patients across CA, FL, and CO. Specialty Clinic dropped “Austin” from their name as the

“

In 2021, we began charting a new future by bringing together several great brands. The future of healthcare is focused on providing highly personalized services that fit the needs of the consumer.”

*AJ Patel, CEO at TeleMed2U group of companies*

brand repositions itself as a nationwide end-to-end mental health services provider with plans of rolling out to all 50 states by the end of Q1, 2022. The 13,000 sq.ft. Austin-based facility will become the HQ for the company’s behavioral health division.

Since the acquisition, Medzino, which previously focused on primary care, has also realigned with the company’s goal to serve as its direct to consumer subscription arm. The company has rolled out several mental health offerings competing with the likes of Cerebral, Ginger, Hims, and other startups we have seen pop up during the COVID-19 pandemic to capture a share of this fast-growing

market.

TeleMed2U’s vision of growing their direct-to-consumer services with a focus on mental health correlates with the spike in demand for these services since the pandemic.

These acquisitions strengthen the presence of [Moneta Ventures](#) in Texas. Moneta introduced both Austin-based Medzino Health and the Specialty Clinic of Austin to TeleMed2U as potential acquisition targets. “The pandemic has shone a light on the importance of increasing access to specialty healthcare services, including behavioral health services. There are deep synergies between TeleMed2U’s core offerings and these businesses serve to both expand TeleMed2U’s clinical capacity and widen the breadth of modalities that patients can leverage to get top-quality care. We believe that TeleMed2U is better positioned than ever to deliver on its mission to bring Specialty care to everyone and utilize technology to deliver quality care and better patient outcomes.” - Aasim Hasan, General Partner at Moneta Ventures & Texas Leader.

“In 2021, we began charting a new future by bringing together several great brands. The future of healthcare is focused on providing highly personalized services that fit the needs of the consumer. By merging these talented teams, we have successfully started building our revised vision of helping more people access high quality, personalized care to improve their health through our platform.” - AJ Patel, CEO at TeleMed2U group of companies.
