

# Arkansas US Navy Veterans Lung Cancer Advocate Urges a Navy Veteran with Lung Cancer in Arkansas to Call Attorney Erik Karst of Karst von Oiste About Compensation If the Veteran Had Navy Asbestos Exposure Before 1982

LITTLE ROCK, ARKANSAS, USA, January 21, 2022 /EINPresswire.com/ -- The Arkansas US Navy Veterans Lung Cancer Advocate is urging the family of a Navy Veteran who has just been diagnosed with lung cancer anywhere in Arkansas to please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 if before 1982 they had heavy to extreme exposure to asbestos on any type of navy ship, a submarine or at a shipyard. Financial compensation for a person like this might exceed \$100,000, the claim does not involve suing the navy and it does not matter if the person smoked cigarettes. [www.karstvonoiste.com/](http://www.karstvonoiste.com/)

The Advocate says, "Most people who had heavy to extreme exposure to asbestos in the navy or at work prior to 1982 do not realize the \$30 billion dollar-asbestos trust funds were set up for them too-if they have recently been diagnosed with lung cancer. If the individual-we have described sounds like you or your loved one-please make it a priority to call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303. The key to a lung cancer compensation claim is-the person with the cancer must be able to recall the specifics of how they were exposed to asbestos prior to 1982." The Arkansas US Navy Veterans Mesothelioma Advocate is offering to assist people with asbestos exposure lung cancer or mesothelioma in Little Rock, Fort Smith, Fayetteville, Springdale, Jonesboro, Pine Bluff or anywhere in Arkansas.

<https://Arkansas.USNavyLungCancer.Com>

Individuals in the state of Arkansas could have been exposed to asbestos while working at a power plant, at an industrial facility, at a steel mill, at an automobile manufacturing facility, at a chemical plant, as a plumber, a boiler technician, as an auto repairman, as an electrician, or in the construction industry.

Additionally, we help veterans exposed to asbestos while serving in the US Navy. In most cases, the exposure to asbestos caused mesothelioma at one of these types of workplaces and the exposure took place in the 1950's, 1960's, 1970's, or 1980's. Asbestos exposure lung cancer or mesothelioma typically takes three to five decades to appear.

“

Most people who had exposure to asbestos in the navy or at work prior to 1982 do not realize the \$30 billion dollar-asbestos trust funds were set up for them too-if they have lung cancer.”

*Arkansas US Navy Veterans  
Lung Cancer Advocate*

The US Navy Veterans Lung Cancer Advocate says, “If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact.” <https://USNavyLungCancer.Com>

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware. [www.karstvonoiste.com/](http://www.karstvonoiste.com/)
