SHERIDAN, WYOMING, UNITED STATES, December 3, 2021 /EINPresswire.com/

-- According to the latest report by IMARC Group, titled "[Stoma/Ostomy Care Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026](#)," the global stoma/ostomy care market exhibited moderate growth during 2015-2020. A stoma is an ostomy opening in the abdomen of the patient to facilitate removal of the body waste. It is pink to red in color, moist, round with no nerve sensations, usually requiring special care for effective treatment. Presently, there is a wide range of stoma/ostomy care products and accessories available in the market. These products are air-and water-tight and commonly used in the treatment of chronic disorders, such as bowel, prostate or bladder cancer.

We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Global Stoma/Ostomy Care Market Trends:

The rapidly rising geriatric population represents one of the primary factors driving the market. Apart from this, the increasing prevalence of inflammatory bowel disease (IBD), bladder cancer and Crohn's disease are also contributing to the market growth. Furthermore, the leading players are focusing on introducing advancements like innovative ostomy care products that

assist in providing pH control to prevent skin infections and reducing odor. This, along with the introduction of efficient and suitable pouching systems and accessories that meet the requirements of ostomy patients, is strengthening the market growth. Other major factors, such as the rising number of awareness campaigns about ostomy and considerable improvements in the healthcare infrastructure, are anticipated to propel the growth of the market. Looking forward, IMARC Group expects the market to expand at a CAGR of 4.3% during the forecast period (2021-2026).
