The widespread usage of biopsy screening programs has rapidly increased the adoption rate of breast biopsy procedures. Moreover, the diagnosis of breast cancer at early stages is quite affordable to women for best prognosis, thereby triggering the demand for breast biopsy procedures globally.

Covid-19 scenario:

The outbreak of Covid-19 and followed pandemic hampered the growth of the industry across the globe. However, the breast biopsy industry has been affected by Covid-19 to a limited extend.

The rise in the Covid-19 infection among healthcare workers has created a short supply for the R&D activities of breast cancer liquid biopsy.

Comprehensive competitive analysis and profiles of major market players, such as

Key players operating in the market include Hologic Inc., Leica Biosystems Nussloch GmbH (Devicor Medical Products, Inc.), C. R. Bard, Inc., Becton and Dickinson Company, Argon Medical

Devices, Cook Medical Incorporated, Encapsule medical Devices LLC., Ethicon Endo Surgery (Johnson & Johnson), Intact Medical Corporation, and Galini SRL.

#### Key Benefits For Stakeholders:

- The study provides an in-depth analysis of the Breast Biopsy Market along with the current trends and future estimations to elucidate the imminent investment pockets.
- It offers Breast Biopsy Market analysis from 2021 to 2027, which is expected to enable the stakeholders to capitalize on the prevailing opportunities in the market.
- A comprehensive analysis of four regions is provided to determine the prevailing opportunities.
- The profiles and growth strategies of the key players are thoroughly analyzed to understand the competitive outlook of the global Breast Biopsy Market growth.

North America held the lion's share

By region, the market across North America dominated the market in 2019, accounting for more than two-fifths of the market. This is due to increase in prevalence of breast cancer, rise in preference of physicians & patients for minimally invasive procedures, and availability of advanced healthcare facilities with trained medical professionals. However, the global breast cancer liquid biopsy market across Asia-Pacific is estimated the highest CAGR of 20.7% during the forecast period, owing to increase in number of breast cancer patients, advantages of breast cancer liquid biopsy tests over traditional tests, and improvement in healthcare facilities.
